Chair's Foreword

Despite the volatility in the market during the year, 2018/19 delivered an annual return of 6.0% in line with the Fund's target return. There has been moderate growth and increased investment over the year, especially in infrastructure and property. Over the last three years, the Fund has returned 10.3% p.a. reflecting the increase in equity investment performance during the period.

The triennial revaluation as at 31 March 2019 is currently taking place to calculate contribution rates for 2020-21. The results of this will be available later in the year.

Fund governance continues to be busy. LGPS Central Ltd, the multi-asset investment pool Nottinghamshire has formed with eight other Midlands based funds, started trading on 1st April 2018 and has made significant progress during its first year. Nottinghamshire made commitments to four of LGPS Central's funds during the year and work continues to develop more funds for the Pension Fund and our pool partners to invest in.

The Nottinghamshire Pension Fund has seen a large increase in employer membership over the last few years, along with changes in scheme membership.

Focussing on fund administration, the Nottinghamshire Pensions Office has continued to build on the implementation of the scheme administration strategy by supporting scheme employers to meet their statutory requirements. The Strategy was implemented in April 2017 and outlines the responsibilities and procedures to be followed by employers. We must emphasise that the administration service is not just the responsibility of the administering authority but is dependent on effective joint working with all scheme employers. Timeliness and accuracy are an important element of delivering a high-quality service to scheme employers and our scheme members. Legislation dictates the minimum standards that pension schemes should meet.

Over the coming year, the Pensions Regulator will be requiring all Administration Authorities to evidence good practice by reporting on various activities including data quality which is essential in the administration of pension benefits to members. We take this responsibility very seriously.

A number of projects have been progressing over the financial year to improve aspects of the scheme administration through introducing technology, along with continuing work on the scheme requirements of HMRC's guaranteed minimum pension (GMP) reconciliation project.

In accordance with the Investment Strategy Statement, the Fund continues a long-term responsible investment approach, actively engaged with equity holdings by exercising voting rights and engaging with companies through its investment managers, our pooling partners LGPS Central and membership of the Local Authority Pension Fund Forum (LAPFF). This engagement approach continues to highlight and improve the resilience of corporate strategies at global resource companies in the wake of climate change agreements.

Looking forward we will continue to engage with our employer partners and fund members to ensure that we fulfil our obligation to deliver the future secure pensions for our LGPS members.

Cllr Eric Kerry

Chair of the Nottinghamshire Pension Fund Committee

Management and Financial Performance

Scheme management and advisers

Nottinghamshire County Council is the administering authority for the Local Government Pension Scheme within Nottinghamshire for which it invests and administers funds with over 330 contributing employers and over 47,000 contributing members. The Governance Compliance Statement (page 54) sets out the governance arrangements of the pension fund and covers:

- the delegation of authority to the Nottinghamshire Pension Fund Committee

- the functions and responsibilities of this committee
- the representation of members, employers and trade unions
- stakeholder engagement
- compliance with best practice.

The Local Government Pension Scheme within Nottinghamshire is managed by and receives advice from a number of different organisations/individuals, as listed below:

Nottinghamshire officers responsible for the fund

Service Director – Finance, Infrastructure & Improvement	Nigel Stevenson
Group Manager – Financial Strategy & Accounting	Keith Palframan
Senior Accountant – Pensions & Treasury Management	Tamsin Rabbitts
Service Director – Customers and HR	Marjorie Toward
Group Manager – Business Support Centre	Sarah Stevenson
Pensions Manager	Jon Clewes

Other organisations/individuals

Any of these may be contacted via the email address: local.governmentpensions@nottsc.gov.uk

Main Investment Managers used by the fund	Schroders Legal & General Investment Management Kames Capital Aberdeen Standard Investments
Regional Pool Operator	LGPS Central Ltd
Fund custodian	State Street
Fund AVC providers	Prudential Scottish Widows
Fund actuary	Barnett Waddingham Public Sector Consulting
Banker to the fund	Barclays Bank
The fund auditor	Grant Thornton
Independent adviser	William Bourne

Risk management

The Pension Fund's Risk Management Strategy (page 81) is to:

- identify key risks to the achievement of the Fund's aims
- assess the risks for likelihood and impact
- identify mitigating controls
- allocate responsibility for the mitigating controls
- maintain a risk register detailing the risk features in a)-d) above
- review and update the risk register on an annual basis
- report the outcome of the review to the Nottinghamshire Pension Fund Committee annually.

The latest approved risk register is on page 85.

Financial Performance

The pension fund accounts are shown in detail on pages 20 to 53.

The Fund Account shows a net outflow of £46m from dealings with members. Investment income for the year was £163m, an increase on the previous year. Added to this is a net income of £154m from sales and/or increases in the market value of the Fund's investments (though these market values could change in future), so the overall return on investments for the year is £311m.

Overall, the value of the fund has increased by £261m over the year to stand at £5,433m. The chart below shows how the 3 main components have contributed to the Fund's value over the last 5 years.

Change in Market Value of the Fund

Investment Policy and Performance

Investment Policy

The members of the Nottinghamshire Pension Fund Committee are drawn from the County Council, other large achieve fund employers, trade unions, and the members themselves, and they have responsibility for determining the investment strategy, asset allocation and management arrangements for the Fund in order to meet the long-term funding objective of achieving and then maintaining sufficient assets to cover 100% of the Fund's projected accrued liabilities.

The Nottinghamshire Pension Fund Committee separately approves the following policy statements governing the investments made by the Pension Fund:

The Funding Strategy Statement (page 58) sets out the aims and purpose of the pension fund and the responsibilities of the administering authority as regards funding the scheme. Its purpose is to explain:

- How the costs of the benefits provided under the Local Government Pension Scheme (the "Scheme") are met through the Fund.
- The objectives in setting employer contribution rates.
- The funding strategy that is adopted to meet these objectives.

The funding objectives are to:

- Set levels of employer contribution that will build up a fund of assets that will be sufficient to meet all future benefit payments from the Fund.
- Build up the required assets in such a way that employer contribution rates are kept as low and stable as possible.

It is recognised that investment returns play a significant role in defraying the cost of providing pensions by mitigating the contributions required from employers. The Investment Strategy Statement (page 65) sets out detailed responsibilities relating to the overall investment strategy of the fund including the proposed asset allocation, restrictions on investment types, the type of investment management used and performance monitoring. It also states the fund's approach to responsible investment and corporate governance issues.

The following principles underpin the Fund's investment activity:

- The Fund will aim to be sufficient to meet all its obligations on a continuing basis.
- The Fund will be invested in a diversified range of assets.
- Proper advice on the suitability of types of investment will be obtained and considered at reasonable intervals.
- The Fund will aim to conduct its business and to use its influence in a long term responsible way.

The Nottinghamshire Pension Fund Committee is responsible for deciding the asset allocation of the fund. The asset allocation currently favours "growth assets" (equities and property) over "defensive assets" (bonds and cash) as the former are expected to outperform the latter over the long term. As the Fund receives significant investment income, it is unlikely to need to sell assets to pay benefits for at least 20 years. This allows the Fund to continue to implement a long term investment strategy.

The agreed asset allocation ranges are those aimed at achieving best returns within acceptable risk parameters. These are shown below.

Equities	55% to 75%
Property	5% to 25%
Bonds	10% to 25%
Cash	0% to 10%

At the end of the financial year 2018/19 the actual asset allocation was as shown in the chart below. These allocations are within the agreed ranges.

More detail on the actual asset allocation is shown in the following charts.

Asset Allocation of the Fund 31 March 2019

Breakdown of Overseas Equities

The Pension Fund Committee also determines the investment management arrangements to implement the agreed strategy. The assets of the Fund are managed within five portfolios and a breakdown of these as at 31 March 2019 is shown below:

Management of Funds 2018/19

The in-house team of five, led by the Senior Accountant (Pensions and Treasury Management) monitors all externally managed investments. The team also records and accounts for all the pension fund investments, producing quarterly valuations for Pension Fund Committee as well as the annual report and accounts.

Investment Performance

In 2018/19, the Fund achieved an overall return from its investments of 6.0% which is in line with the target return. The fund underperformed compared with its strategic benchmark return of 7.6% over the year which is partly due to specific performance within individual portfolios, but also to differences between the notional strategic benchmark and the actual asset allocation in the fund as we gradually move to our new asset allocation over time.

Core index equities provided a return of 7.6% over the year, whereas externally managed equities returned 7.0%. Bonds returned positive growth of 3.5%, only slightly below the benchmark. The Fund's investment in the UK property market made a return of 5.3% for the year which is below our target return for property of 6.5% but exceeds the market comparator which stood at 4.4% for the year. Some elements of our Specialist portfolio performed poorly and included some one-off adjustments, which depressed performance overall to a disappointing 4.5%. Longer term performance remains robust across all portfolios.

Detailed performance figures are shown in the table on page 9.

Post Pool Reporting

LGPS Central (LGPSC) Pool

Nottinghamshire County Council - in conjunction with the administering authorities of Cheshire, Derbyshire, Leicestershire, Shropshire, Staffordshire, West Midlands and Worcestershire - has established a multi asset investment pool called LGPS Central (LGPSC). LGPSC has a structure that allows participating funds to exercise control (both individually, and collectively), not only as investors in the pooled funds, but also as shareholders (or 'Partner Funds') of the operator company, LGPS Central Ltd. It opened for business with the launch of 3 new mandates in April 2018, and operates out of Wolverhampton, West Midlands, and Matlock, Derbyshire.

Scheme Administration Arrangements

The Pensions Office

The Pensions Office is the part of the Nottinghamshire Pension Fund responsible for the administration of the Nottinghamshire Local Government Pension Scheme (LGPS), including the Councillors' LGPS. The Pensions Office undertakes the 'nuts and bolts' of pensions work from setting up new members and updating their records during membership to making payment of their retirement benefits. This work is undertaken in line with the statutory LGPS Regulations. In addition, the office also undertakes some of the employer related work of the LGPS on behalf of Nottinghamshire County Council.

The office is currently separated into the following areas of work:

- Pensions Administration
- Employer Support and Compliance
- Technical/Communications
- Technical/Performance

Pensions Administration System

Over the last year a number of developments are being progressed in order to support employers with their Pensions Administration. An Employer portal is in the development stage which will support larger employers manage their data, and provide access to some pension information. Updates are continually being planned and implemented, these developments include; automated bulk data uploads, bulk data processing, statutory changes, performance reporting, document imaging, a workflow system which assists with the distribution and prioritisation of work and a contact manager facility linked to pension records which can be utilised to assist Pensions Office staff to answer telephone enquiries.

Benchmarking

The Pensions Office, as part of measuring its administration cost and performance against other Administering Authorities, belongs to the Pensions Administration Benchmarking Club. This Club is run by the Chartered Institute of Public Finance Limited and we have been a member of it since 2000. Our performance in terms of cost per member has always been lower than the national average, and we continue to remain one of the cheaper cost-per-member authorities for administration in the country.

Communications

The Communications Strategy Statement (see page 75) details the overall strategy for involving stake holders in the pension fund. A key part of this strategy is a dedicated pension fund website. This is available at www.nottspf.org.uk and includes all of the policy statements as well as a great deal more information about the investments and benefits of the pension fund.

Benefit Statements

The Pensions Office is required each year to send annual benefits statements to its active and deferred members. The statement is intended to inform the scheme member of the value of their benefits, and provide an overview of when they may become payable.

Website

The pension's website (www.nottspf.org.uk) covers all aspects of the LGPS and has information for all different types of stakeholders including active members, councillor members, deferred members, pensioners, their dependants and employers. There is also a section which gives details on the investment performance of the Fund and related matters.

The website improves communication to pensioners, members of the scheme and employers.

The website helps to answer questions, and provide up to date information on the LGPS, and support communication with the Pensions administration team. The website meets modern website design criteria, and is accessible via multiple devices, that will encourage members and pensioners to use the site, making it easy to find the information that they need. A future development will be to provide members with restricted access to their own pension record enabling them through secure access to update personal details such as address, complete online forms and against certain criteria simulate pension estimates. This will have the advantage of reducing direct administration contact to more priority cases, and therefore reducing administration costs.

Employer Support and Compliance Function

The Pensions Office’s Employer Support and Compliance function is responsible for liaison with scheme employers on a range of matters in relation to their responsibilities under the LGPS Regulations. This includes:

- Supporting employers in undertaking their responsibilities;
- Communicating Regulation and process changes to LGPS employers;
- Resolving problems in relation to the quality of information supplied by LGPS employers;
- The development of improved communication methods between the Pensions Office and LGPS employers;
- The review and improvement of information and administrative systems.

We also have the following contact with our LGPS Scheme Employer representatives:

- Year-end meetings are undertaken yearly to support preparation for and understanding of reporting requirements at year end;
- Meetings with employer representatives to communicate changes to the LGPS Regulations and the impact on employer responsibilities;

- Ad hoc individual or group support and training sessions with LGPS Employers.

The administration strategy has now been in circulation with scheme employers since May 2017 and has supported the work of the Administration Team and Scheme Employers. The Strategy has helped in providing a framework to ensure that the administering authority, and scheme employers work together for the benefit of members to ensure statutory compliance and efficiency in the administration of the scheme.

Membership

The majority of employees of our scheme employers will be brought into the pension scheme automatically, whether through ‘contractual enrolment’ under the schemes rules or under the Governments ‘auto-enrolment’ rules. Members can though elect to opt out of the scheme after their first day of employment if they wish.

The membership of the fund over the past three years has been:

	31/03/17	31/03/18	31/03/19
Contributors	43,184	47,405	47,189
Deferred Benefits	49,897	53,677	54,628
Pensioners	34,240	35,835	36,925
Total	127,321	136,917	138,742

Statement by the Actuary

Introduction

The last full triennial valuation of the Nottinghamshire County Council Pension Fund was carried out as at 31 March 2016 as required under Regulation 62 of the Local Government Pension Scheme Regulations 2013 (the Regulations) and in accordance with the Funding Strategy Statement of the Fund. The results were published in the triennial valuation report dated 31 March 2017.

Asset value and funding level

The results for the Fund at 31 March 2016 were as follows:

- The smoothed market value of the Fund's assets as at 31 March 2016 for valuation purposes was £4,028m.
- The Fund had a funding level of 87% i.e. the assets were 87% of the value that they would have needed to be to pay for the benefits accrued to that date, based on the assumptions used. This corresponded to a deficit of £621m.

Contribution rates

The employer contributions rates, in addition to those paid by the members of the Fund, are set to be sufficient to meet:

- The annual accrual of benefits allowing for future pay increases and increases to pensions in payment when these fall due;
- plus an amount to reflect each participating employer's notional share of the Fund's assets compared with 100% of their liabilities in the Fund, in respect of service to the valuation date.

The primary rate of contribution on a whole Fund level was 14.5% of payroll p.a. The primary rate as defined by Regulation 62(5) is the employer's share of the cost of benefits accruing in each of the three years beginning 1 April 2017.

In addition each employer pays a secondary contribution as required under Regulation 62(7) that when combined with the primary rate results in the minimum total contributions. This secondary rate is based on their particular circumstances and so individual adjustments are made for each employer.

Details of each employer's contribution rate are contained in the Rates and Adjustment Certificate in the triennial valuation report.

Assumptions

The key assumptions used to value the benefits at 31 March 2016 are summarised below:

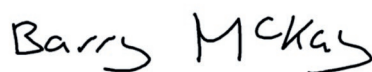

Assumption	31 March 2016
Discount rate	5.4% p.a.
Pension increases	2.4% p.a.
Salary increases	In line with CPI until 31 March 2020 and 3.9% p.a. thereafter
Pension increases on GMP	Funds will pay limited increases for members that have reached SPA by 6 April 2016, with the Government providing the remainder of the inflationary increase. For members that reach SPA after this date, we have assumed that Funds will be required to pay the entire inflationary increases.
Mortality	The post retirement mortality assumptions adopted are the S2PA tables with a multiplier of 100% for males and 90% for females, making allowance for CMI 2015 projected improvements and a long term rate of improvement of 1.5% p.a.
Retirement	Each member retires at a single age, weighted based on when each part of their pension is payable unreduced.
Commutation	Members will convert 50% of the maximum possible amount of pension into cash.

Updated position since the 2016 valuation

Since 31 March 2016, investment returns have been higher than assumed at the 2016 triennial valuation. The value placed on the liabilities will, however, have also increased due to the accrual of new benefits as well as a slight decrease in the real discount rate underlying the valuation funding model.

Overall, we estimate that the funding position as at 31 March 2019 has improved compared with the position as at 31 March 2016. However, the primary rate is also expected to increase due to changes to the long term investment strategy since the previous valuation and the expectation of incorporating more prudence into the valuation funding assumptions.

The next formal valuation will be carried out as at 31 March 2019 with new contribution rates set from 1 April 2020.

Barry McKay FFA

Associate, Barnett Waddingham LLP

Pension Fund Accounts, Net Assets Statement and Notes

Nottinghamshire County Council is the Administering Authority for the Local Government Pension Scheme (LGPS) within Nottinghamshire. The LGPS is a statutory scheme administered by individual pension funds. The benefits within the scheme are determined by regulation and are guaranteed by statute. The pension fund exists to help defray the cost of paying the pension benefits. Members make contributions to the Fund as specified in the regulations and employers make contributions as determined by the Fund's actuary as part of the triennial valuation of the Fund. All new employees are brought into the scheme automatically, unless a positive election not to participate is received from the employee.

The Authority administers the pension fund for over 330 participating employers and approximately 140,000 members. The employers include the County Council, the City Council, District Councils and organisations which used to be part of local government (such as Nottingham Trent University, Colleges, Police civilian staff and Academies). They also include organisations which satisfy the conditions to participate in the LGPS and have been admitted to the Fund by the Authority. In general, these organisations are non-profit making, or are undertaking a service which was, or could be, carried out by a local authority.

The operation of the Fund is set out in a number of published policy statements. Under the Governance Compliance Statement, the functions as administering authority of the Fund are delegated to the Nottinghamshire Pensions Fund Committee. The Funding Strategy Statement sets out the aims and purpose of the Fund and details the responsibilities of the administering authority as regards funding the scheme.

The Investment Strategy Statement sets out more detailed responsibilities relating to the overall investment strategy of the Fund including the proposed asset allocation, restrictions on investment types, the type of investment management used and performance monitoring. It also states the Fund's approach to responsible investment and corporate governance issues.

The Administration Strategy which sets out the quality and performance standards expected of Nottinghamshire County Council in its role of administering authority and scheme employer, and those expected of other scheme employers within the Fund.

The Communications Strategy Statement details the overall strategy for involving stakeholders in the Fund. A key part of this strategy is a dedicated Fund website (www.nottspf.org.uk). This annual report, along with previous years' reports, is accessible via the pension fund website.

The annual report includes the accounts and the published policies as well as information on the performance of the fund. The accounts of the fund are set out over the following pages. The CIPFA Code of Practice on Local Authority Accounting in the United Kingdom 2018/19 requires:

- A fund account showing the changes in net assets available for benefits.
- A net assets statement showing the assets available at the year end to meet benefits
- Supporting notes.

The actuarial present value of promised retirement benefits, as required by the *Code of Practice on Local Authority Accounting in the United Kingdom 2018/19*, is shown at note 2c.

Notes to the Accounts

1 ACCOUNTING POLICIES

a) Basis of Preparation

The Pension Fund accounts have been prepared in accordance with the *Code of Practice on Local Authority Accounting in the United Kingdom 2018/19* (the Code). On issues where there is no clear guidance in the Code, reference has been made under the hierarchy of standards to *Financial Reports of Pension Schemes: a Statement of Recommended Practice 2015* (the Pensions SORP) or to individual International Accounting Standards (IAS). Disclosures required by IFRS 9 and 15 have been reflected in the accounts where material. Disclosures in the Pension Fund accounts have been limited to those required by the Code. Paragraph 3.3.1.2 of the Code requires disclosure of any accounting standards issued but not yet adopted. No such accounting standards have been identified for 2018/19.

The accounts have been prepared on a going concern basis.

b) Debtors and Creditors

The accruals concept is applied to these accounts in compliance with the Code.

c) Investments

Pension fund investments are carried at fair value in accordance with the Code. Fair value is defined as 'the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties in an arm's-length transaction'. Where an active market exists, the quoted market price is used. Where there is no active market, fair value is established by using valuation techniques.

Specific details on the valuation methods for particular classes of assets are listed below:

- Equities traded through a stock exchange are valued at the latest quoted price. Where more than one price is quoted the 'bid' price is used.
- Unit Trusts and managed funds are valued at the closing single price or the bid price where applicable. These reflect the market value of the underlying investments.
- Unquoted securities and pooled private equity investments are valued at fair value by the fund managers based on earnings, revenues and comparable valuations in accordance with industry accepted guidelines.
- The market value of fixed interest investments is based on the 'clean price', i.e. excludes income accrued at 31 March but not yet due for payment.
- Property investments are stated at open market value based on a quarterly independent external valuation in accordance with the Royal Institute of Chartered Surveyors' Valuation Standards at the Net Assets Statement date based on lease terms, nature of tenancies, covenant strength, vacancy levels, estimated rental growth and discount rate.

Transaction costs arising on all investment purchases and sales are charged to the Fund Account within 'Profits & losses on disposal of investments & changes in value' by adding to purchase costs and netting against sale proceeds, as appropriate, for all investment types. This achieves consistency between asset classes and ensures all transaction costs are charged to the Fund Account. It also ensures that the financial statements faithfully represent the economic substance of the transactions. The economic substance of purchases and sales of all asset types is to generate returns for the Fund to help mitigate the cost to employers of providing pensions. Transaction costs are ancillary to this purpose.

The change in fair value of investments during the year comprises all increases and decreases in the market value of investments held at any time during the year, including profits and losses realised on sales of investments and unrealised changes in market value.

Forward foreign exchange contracts are "over the counter contracts" under which two parties agree to exchange two currencies on a specified future date at an agreed rate of exchange. These are used to manage the economic exposure to bond markets and hedge against foreign currency movements. These contracts are included at fair value by determining the gain or loss that would arise from closing out the contract at the Net Assets Statement date by entering

into an equal and opposite contract at that date. The movements on these contracts during the year are shown in the reconciliation of opening and closing balances of investments at note 11(b).

d) Investments Income

Income is accounted for on an accruals basis for the following:

- interest on cash deposits and fixed interest securities is accrued on a daily basis
- dividends from equities are accrued when the stock is quoted ex-dividend
- rental income from operating leases on properties owned by the fund is recognised on a straight line basis over the term of the lease. Any lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease.

e) Taxes on Income

UK equity dividends are quoted and accounted for at the net rate. The tax credit, which the Fund is unable to recover, is not recognised (in accordance with the Pensions SORP). Overseas equity dividends are accounted for gross of withholding tax, where this is deducted at source. Partial reclaims of withholding tax, where allowed, are adjusted at the year end by outstanding claims.

f) Foreign Currencies

Assets and liabilities in foreign currencies are expressed in sterling at the rates of exchange ruling at the year-end. Income from overseas investments is translated into sterling at the rate ruling on the date of the transaction. Surpluses and deficits arising on conversion or translation are dealt with as part of the change in market value of investments.

g) Contributions

Normal contributions, both from the members and from employers, are accounted for in the payroll month to which they relate at rates as specified in the rates and adjustments certificate. Additional contributions from employers are accounted for on an accruals basis.

h) Benefits Payable

Under the rules of the Scheme, members can receive a lump sum retirement grant in addition to their annual pension. Lump sum retirement grants are accounted for from the date of retirement. Where a member can choose whether to take a greater retirement grant in return for a reduced pension these lump sums are accounted for on an accruals basis from the date the option is exercised. Other benefits are accounted for on the date the member leaves the Scheme or on death.

i) Transfers to and from Other Schemes

Transfer values represent the capital sums either receivable (in respect of members from other pension schemes of previous employers) or payable (to the pension schemes of new employers for members who have left the Scheme). They take account of transfers where the trustees (or administering authority) of the receiving scheme have agreed to accept the liabilities in respect of the transferring members before the year end, and where the amount of the transfer can be determined with reasonable certainty.

j) Other Expenses

Management expenses are accounted for on an accruals basis. Expenses are recognised net of any recoverable VAT. Nottinghamshire County Council charges the Fund with the costs it incurs in administering the scheme and the Fund. Fees and charges within pooled investment vehicles have the effect of reducing the fair value of those investments. These embedded costs are disclosed at note 10.

k) Property related income

Property related income consists primarily of rental income. Rental income from operating leases on properties owned by the fund is recognised on a straight line basis over the term of the lease. Any lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease.

2 OPERATION OF THE FUND

a) General

Nottinghamshire County Council is the Administering Authority for the Local Government Pension Scheme (LGPS) within Nottinghamshire. The scheme is governed by the Public Service Pensions Act 2013. The fund is administered in accordance with the following secondary legislation:

- the Local Government Pension Scheme Regulations 2013 (as amended)
- the Local Government Pension Scheme (Transitional Provisions, Savings and Amendment) Regulations 2014 (as amended)
- the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2016.

The LGPS is a statutory scheme administered by individual pension funds. The benefits within the scheme are determined by regulation and are guaranteed by statute. The pension fund exists to help defray the cost of paying the pension benefits. Members make contributions to the Fund as specified in the regulations and employers make contributions as determined by the Fund's actuary as part of the triennial valuation of the Fund. All new employees are brought into the scheme automatically, unless a positive election not to participate is received from the employee.

The Authority administers the pension fund for over 300 participating employers and over 138,000 members. The employers include the County Council, the City Council, District Councils and organisations which used to be part of local government (such as Nottingham Trent University, Colleges, Police civilian staff and Academies). They also include organisations which satisfy the conditions to participate in the LGPS and have been admitted to the Fund by the Authority. In general, these organisations are non-profit making, or are undertaking a service which was, or could be, carried out by a local authority.

The operation of the Fund is set out in a number of published policy statements. Under the Governance Compliance Statement, the functions as administering authority of the Fund are delegated to the Nottinghamshire Pension Fund Committee.

The Funding Strategy Statement sets out the aims and purpose of the Fund and details the responsibilities of the administering authority as regards funding the scheme.

The Investment Strategy Statement sets out more detailed responsibilities relating to the overall investment strategy of the Fund including the proposed asset allocation, restrictions on investment types, the type of investment management used and performance monitoring. It also states the Fund's approach to responsible investment and corporate governance issues.

The Communications Strategy Statement details the overall strategy for involving stakeholders in the Fund. A key part of this strategy is a dedicated Fund website (available at www.nottspf.org.uk).

A separate annual report for the Fund is also produced and this, along with previous years' reports, will be accessible via the pension fund website. The annual report includes the accounts and the published policies as well as information on the performance of the fund.

The accounts of the fund are set out over the following pages. The CIPFA Code of Practice on Local Authority Accounting in the United Kingdom 2018/19 requires:

- a fund account showing the changes in net assets available for benefits
- a net assets statement showing the assets available at the year end to meet benefits
- supporting notes.

b) Contributions and Solvency

With effect from 1 April 2008 The Local Government Pension Scheme (Benefits, Membership and Contributions) Regulations 2007 were introduced. The principal changes from the 1997 regulations were: the replacement, for future service, of the existing benefits structure (based on a pension of 1/80th of pensionable pay for each year of pensionable service plus an automatic lump sum of three times this amount) by one based on 1/60th of pensionable pay for each year of pensionable service and no automatic lump sum. Under the 2008 scheme, employees were required to make percentage contributions by deduction from earnings at a rate between 5.5% and 7.5% depending on salary.

From 1 April 2014 the new Local Government Pension Scheme was introduced for service accruing after that date. This is a career average revalued earnings (CARE) scheme with an accrual rate of 1/49th of pensionable pay and a retirement age linked to the state retirement age. Employee contribution rates in the new scheme range from 5.5% to 12.5% depending on salary.

Employers are required to make such balancing contributions, determined by the Actuary, as will maintain the fund in a state of solvency, having regard to existing and prospective liabilities.

c) Actuarial Valuations

As required by the Regulations an Actuarial Valuation of the Fund was carried out as at 31 March 2016. The market value of the Fund's assets at the valuation date was £4,028 million. The Actuary has estimated that the value of the Fund was sufficient to meet 87% of its expected future liabilities in respect of service completed to 31 March 2016. The certified contribution rates are expected to improve this to 100% within a period of 20 years. The full actuarial valuation report is available on the Fund's website at www.nottspf.org.uk.

The Actuarial Valuation was carried out using the projected unit method and the assumptions used within the valuation are shown below.

Expected investment returns:

	31 March 2016 % pa
Equities	7.4
Gilts	2.4
Property	5.9
Discount Rate	5.4
Retail price inflation (RPI)	3.3
Consumer price inflation (CPI)	2.4
Long term pay increases	3.9
Pension Increases	2.4

The 2016 valuation produced an average employer contribution rate of 20.4%. Employer contributions were certified by the actuaries for the years 2017/18 to 2019/20. For the majority of employers, the rate for future service accrual was certified as a percentage of salary with an additional cash amount specified for deficit recovery. The following list shows the contributions payable by the main employers:

Certified employer contributions		2017/18	2018/19	2019/20
Nottinghamshire County Council		15.4%	15.4%	15.4%
	Plus:	£13,454,000	£13,776,000	£14,105,000
Nottingham City Council		13.7%	13.7%	13.7%
	Plus:	£12,009,000	£12,296,000	£12,590,000
Ashfield District Council		14.4%	14.4%	14.4%
	Plus:	£1,919,000	£1,965,000	£2,012,000
Bassetlaw District Council		16.2%	16.2%	16.2%
	Plus:	£1,880,000	£1,159,000	£1,187,000
Broxtowe Borough Council		14.4%	14.4%	14.4%
	Plus:	£691,000	£707,000	£724,000
Gedling Borough Council		15.1%	15.1%	15.1%
	Plus:	£575,000	£588,000	£602,000
Mansfield District Council		16.7%	16.7%	16.7%
	Plus:	£2,298,000	£2,353,000	£2,409,000
Newark and Sherwood District Council		14.5%	14.5%	14.5%
	Plus:	£1,299,000	£1,330,000	£1,362,000
Rushcliffe Borough Council		14.7%	14.7%	14.7%
	Plus:	£1,198,000	£1,227,000	£1,256,000

A number of employers have made accelerated payments for their future years deficit recovery amounts.

d) Actuarial Present Value of Promised Retirement Benefits

The actuarial present value of promised retirement benefits has been calculated by the Fund's actuaries in accordance with IAS 19. To do this, the actuaries rolled forward the value of the Employers' liabilities calculated for the Triennial valuation as at 31 March 2016 allowing for the different financial assumptions required under IAS19. The assumptions used for the purposes of the IAS 19 calculations are as follows:

	31 March 2017		31 March 2018		31 March 2019	
	% pa	Real % pa	% pa	Real % pa	% pa	Real % pa
RPI Increases	3.6	-	3.3	-	3.4	-
CPI Increases	2.7	(0.9)	2.3	(0.9)	2.4	(1.0)
Salary Increases	4.2	0.6	3.8	0.5	3.9	0.5
Pension Increases	2.7	(0.9)	2.3	(0.9)	2.4	(1.0)
Discount Rate	2.8	(0.8)	2.6	(0.8)	2.4	(1.0)
Mortality assumptions:						
Longevity at 65 for current pensioners						
Men (years)				22.6		21.6
Women (years)				25.6		24.4
Longevity at 65 for current pensioners						
Men (years)				24.8		23.3
Women (years)				27.9		26.2
Estimated return on assets				4%		6%

Members will exchange half of their commutable pension for cash at retirement.

The net liability under IAS 19 is shown below.

	31 March 2017	31 March 2018	31 March 2019
	£000	£000	£000
Present value of funded obligation	8,332,963	8,442,517	8,769,711
Fair value of scheme assets	4,895,150	5,132,636	5,406,638
Net Liability	3,437,813	3,309,881	3,363,073

The present value of funded obligation consists of £8,488.3 million in respect of vested obligation and £281.4 million in respect of non-vested obligation.

A ruling has been made regarding age discrimination arising from public sector pension scheme transition arrangements put in place when moving from final salary to average salary scheme arrangements. Court of Appeal judgements were made in cases affecting judges' pensions (the McCloud Judgement) and firefighter pensions. The ruling may have implications for the Local Government Pension Scheme which also moved from a final salary to a career average salary scheme.

The Government Actuary's Department has undertaken a scheme level review for England and Wales to assess the impact on the Local Government Pension Scheme in respect of the potential impact on scheme liabilities and service cost and the IAS 19 figures included in the accounts reflect the estimated impact of the McCloud Judgement. This had the effect of increasing the net liability by £68 million.

These figures are presented only for the purposes of IAS 19. In particular, they are not relevant for calculations undertaken for funding purposes or for other statutory purposes under UK pensions legislation.

e) Investment Strategy

The investment strategy of the Fund is designed to maximise growth within acceptable risk parameters to help meet the future liabilities. The powers of investment are governed by the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009. The current investment policy is set out in the Fund's Investment Strategy Statement, a copy of which is available on the pension fund website (www.nottspf.org.uk).

During 2018/19 the Nottinghamshire Pension Fund Committee, was responsible for determining the investment strategy of the Fund and the type of investment management to be used. The Pension Fund Committee consisted of nine elected County Councillors (voting members), three representatives of Nottingham City Council, two representatives of the District Councils, two representatives of the Trade Unions, a representative elected by the other scheduled and admitted bodies and two appointed pensioner representatives (non voting members). Meetings were also attended by an independent adviser and representatives of the Chief Financial Officer.

The investments were managed by officers of the Authority or by organisations specialising in the management of pension fund assets. The Pension Fund Committee was responsible for monitoring performance of the fund and met on a quarterly basis to review the Fund's main investment managers and their performance.

f) Critical Judgements and Estimations

In applying the accounting policies set out in Note 1 above, the Council has had to make certain critical judgements and estimates about complex transactions or those involving uncertainty about future events. Estimates and assumptions are made taking into account historical experience, current trends and other relevant factors. However, the nature of estimation means that the actual results could differ from the assumptions and estimates.

Pension Fund Liability - The Pension Fund liability is calculated triennially by the appointed actuary with annual updates in the intervening years. The methodology used in the intervening years follows generally agreed guidelines. This estimate is subject to significant variances based on changes to the underlying assumptions which are agreed with the actuary and have been summarised in Note 2 d). Actuarial re-valuations are used to set future contribution rates and underpin the fund's most significant investment management policies.

Property Investments - Valuation techniques are used to determine the carrying amount of pooled property funds and directly held freehold and leasehold property. Where possible these valuation techniques are based on observable data but where this is not possible management uses the best available data.

Level 3 Investments - Private equity investments are valued at fair value in accordance with International Private Equity and Venture Capital Valuation Guidelines (2012). Investments are not publicly listed and as such there is a degree of estimation involved in the valuation.

g) External Audit

A separate fee is payable to Grant Thornton UK LLP for audit of the pension fund. All fees have been included in the accounts for the period to which they relate. The fee for 2018/19 is £23,043 (£29,926 for 2017/18).

	488	1,630

Other external fees includes the Fund's share of the running costs of LGPS Central Ltd.

9 INVESTMENT INCOME

Analysis by type of investment	2017/18 £000	2018/19 £000
Interest from fixed interest securities	(31,194)	(27,553)
Income from index-linked securities	-	-
Dividends from equities	(67,735)	(57,604)
Income from pooled investment vehicles	(27,049)	(52,655)
Income from property pooled vehicles	(4,971)	(5,340)
Net rents from property	(16,950)	(17,646)
Interest on cash deposits	(580)	(1,246)
Other	(1,337)	(728)
	(149,816)	(162,772)
Directly held property		
Rental income	(18,810)	(20,068)
Less operating expenses	1,860	2,422
Net rents from property	(16,950)	(17,646)

The future minimum lease payments receivable by the fund are as follows:

	2017/18 £000	2018/19 £000
Within one year	18,890	20,802
Between one and five years	71,609	71,097
Later than five years	203,342	188,470
Total future lease payments due under existing contracts	293,841	280,369

10 INVESTMENT MANAGEMENT EXPENSES

	2017/18 £000	2018/19 £000
Custody fees	352	417
Investment management fees	4,364	4,803
Other external fees	161	172
Administering Authority Costs	18	18
	4,895	5,410

The investment management fees shown above are those fees attributable to external managers and charged directly to the Fund. Additional fees and charges are incurred through pooled investment vehicles. These have the effect of reducing the fair value of the investments. The estimated embedded costs within pooled investment vehicles were £13.3 million in 2018/19 (£10.5 million in 2017/18).

11 INVESTMENTS

a) Investment Analysis

	31 March 2018	31 March 2019
	£000	£000

Property	438,470	483,262
Forward Foreign Exchange	103	(25)
Cash and Currency	146,032	130,653
Investment Liabilities	-	-
Total Investments	5,140,423	5,406,638

The original values of investments are based on purchase cost plus transaction costs. If any investments have been held since 1 April 1974 (when the Authority was given the responsibility for the Fund) these are included at the market value as at that date.

	31 March 2018 £000	31 March 2019 £000
Market Value	5,140,423	5,406,638
Original Value	3,719,836	4,553,254
Excess/ (Deficit) of Market Value over Original Value	1,420,587	853,384

The Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009 contained a number of restrictions on investments. The limits that are relevant to the Fund are specified in the Fund's Statement of Investment Principles as follows:

- a) Not more than 10% of the Fund to be invested in unlisted securities.
- b) Not more than 10% of the Fund to be invested in a single holding.
- c) Not more than 25% of the Fund to be invested in securities which are managed by any one body, i.e. in a unit trust type arrangement.
- d) Not more than 15% of the Fund to be invested in partnerships, with not more than 2% in any one partnership.

No investments have been made contrary to these limits.

b) Reconciliation of Opening and Closing Values of Investments 2018/19

	Value at 1 April 2018 £000	Purchases at Cost £000	Proceeds of Sales £000	Change in Market value £000	Value at 31 March 2019 £000

	5,140,423				5,406,638

Reconciliation of Opening and Closing Values of Investments 2017/18

	Value at 1 April 2017 £000	Purchases at Cost £000	Proceeds of Sales £000	Change in Market value £000	Value at 31 March 2018 £000
Fixed Interest Securities	745,298	128,873	(133,315)	(24,852)	716,004
Equities	1,998,629	256,950	(184,836)	(38,227)	2,032,516
Pooled Investment Vehicles	1,477,708	330,379	(333,498)	79,958	1,554,547
Property Pooled Vehicles	204,072	38,212	-	10,467	252,751
Property	367,175	60,044	(10,739)	21,990	438,470
	4,792,882	814,458	(662,388)	49,336	4,994,288
Forward Foreign Exchange	-	110,364	(112,114)	1,853	103
	4,792,882	924,822	(774,502)	51,189	4,994,391
Cash deposits	102,267				146,032
	4,895,149				5,140,423

For Forward Foreign Exchange contracts, the purchase cost and sale proceeds represent the sterling value of the currency purchases and sales at the settlement dates specified in the contracts.

Transaction costs are included in the cost of purchases and sale proceeds. The costs charged directly to the fund, such as fees, commissions and stamp duty, amounted to £3.4 million in 2018/19 (£3.9 million in 2017/18). In addition, indirect costs are incurred through the bid-offer spread on investments. This amount is not separately provided.

c) Management Arrangements

The assets of the Fund are managed within five portfolios and a breakdown of these as at the Net Assets Statement date is shown below:

	31 March 2018		31 March 2019	
	£000	%	£000	%
Core Index	1,489,164	29.0%	1,361,636	25.2%
Schroder Investment Management	1,409,787	27.4%	1,509,073	27.9%
Kames Capital	741,001	14.4%	690,557	12.8%
Aberdeen Property Investors	452,933	8.8%	499,881	9.2%
Specialist	1,047,538	20.4%	1,345,491	24.9%
Total	5,140,423	100.0%	5,406,638	100%

A breakdown of material pooled holdings managed by external managers within the In-house and Specialist portfolios is shown below:

	31 March 2018	31 March 2019
	£000	£000
Core Index		
Legal & General	315,215	1,329,955

	4,555,921	188,867	(11,669)	4,733,119

No financial assets were reclassified during the accounting period.

b) Valuation of financial instruments and Property Investments carried at fair value

The valuation of financial instruments has been classified into three levels according to the quality and reliability of information used to determine fair values.

- Level 1** Fair values derived from quoted market price.
- this includes all quoted equity, fixed interest and index linked instruments.
- Level 2** Fair values derived from valuation techniques based significantly on observable inputs.
- this includes all pooled property investments.
- Level 3** Fair values derived from valuation techniques where at least one significant input is not based on observable market data.
- this includes unlisted shares and investments in private equity funds.
- following guidance from IFRS13 Property is included in level 3.

As at 31 March 2019	Level 1 £000	Level 2 £000	Level 3 £000	Total £000
Financial Assets				
Fair value through profit and loss	-	-	-	-

Unrealised gains / (losses)	7,333	18,319
Realised gains / (losses)	-	-
Market value 31 March 2019	483,262	355,801

Sensitivity of assets valued at level 3

Having analysed historical data and current market trends, and consulted with independent investment advisers, the fund has determined that the valuation methods described above are likely to be accurate to within the following ranges, and has set out the consequent potential impact on the closing value of investments held at 31 March 2019.

	Assessed valuation range (+/-)	Value at 31 March 2019 £000	Value on increase £000	Value on decrease £000
Freehold and leasehold property	5%	483,262	507,425	459,099
Private equity and unlisted shares	15%	355,801	409,171	302,431
Total		839,063	916,596	761,530

c) Nature and extent of risks arising from financial instruments

The aims of the Fund are to:

- manage employers' liabilities effectively
- ensure that sufficient resources are available to meet all liabilities as they fall due
- maximise the returns from investments within reasonable risk parameters
- enable employer contribution rates to be kept as nearly constant as possible and at reasonable cost to the taxpayers, scheduled, resolution and admitted bodies.

The key risks to the achievement of these aims, as well as measures to mitigate those risks, are set out in the various Fund policies (available at www.nottspf.org.uk) including:

- Investment Strategy Statement
- Funding Strategy Statement
- Governance Compliance Statement
- Risk Management Strategy and Risk Register

The Risk Register identifies the highest risks as arising from:

- Fund assets are assessed as insufficient to meet long term liabilities
- Standing data and permanent records are not accurate
- Significant variations from assumptions used in the actuarial valuation

Actions have been agreed to mitigate these risks

The Fund's primary risk is that its assets fall short of its long term liabilities. The Funding Strategy Statement states that the funding objectives are to:

- Set levels of employer contribution that will build up a fund of assets that will be sufficient to meet all future benefit payments from the Fund
- Build up the required assets in such a way that employer contribution rates are kept as low and stable as possible.

The most significant effect on the funding level arises from changes in the discount rate used by the actuaries. The sensitivity analysis below (prepared by the Fund's actuaries) shows the impact of a movement of 0.1% in the discount rate.

Adjustment to discount rate	+0.1%	0.0%	-0.1%
Present Value of Total Obligation (£000)	8,600,198	8,769,711	8,942,736

The Fund deficit at the last triennial valuation was £621 million.

For the first time in 2013/14 there was a net withdrawal from dealings with members. The net withdrawal in 2014/15 would have been marginal but for the transfer out in respect of the Nottinghamshire Probation Trust. The net withdrawal in 2015/16 was again marginal, but in 2016/17 is somewhat larger, but still more than covered by investment income. In 2017/18 a number of employers made lump sum deficit contributions, and for this reason there was a net addition to the fund from dealings with members. In 2018/19 the fund returned to a net withdrawal from dealing with members. Investment income significant exceeded this withdrawal.

The Fund continues to receive significant investment income and is therefore unlikely to need to sell assets in order to meet pension benefits. This allows the Fund to implement a long term investment strategy and minimise the impact of short term fluctuations in investment and currency markets. The strategy, and the assumptions that underpin it, are reviewed on a regular basis and cash flows are monitored closely to ensure there is sufficient liquidity to meet forecast cash flows.

The investment strategy is aimed at achieving best returns in line with the requirements of the triennial valuation whilst minimising risk and overall variability in future employers' contribution rates.

Specific risks arising from financial instruments include market risk, credit risk and liquidity risk. These risks are managed within the fund through diversification of assets, careful selection of managers and counter parties, and prudent treasury management. The level of risk in the equities block is managed by a balance between passive and active management.

Policies are reviewed regularly to reflect changes in activity and in market conditions. Responsibility for reviewing and revising the policies rests with the Nottinghamshire Pension Fund Committee.

16 MEMBERS ADDITIONAL VOLUNTARY CONTRIBUTIONS

The Nottinghamshire Fund provides an additional voluntary contribution (AVC) scheme to enable members to purchase additional benefits. Contributions are paid over to, and invested separately by, the two scheme providers, Prudential and Scottish Widows. The contributions are not included in the Fund's accounts in accordance with regulation 4(2)(b) of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009. The value of the separately invested AVCs is shown below:

	31 March 2018 £000	31 March 2019 £000
Prudential	34,088	31,824
Scottish Widows	3,486	3,962
	37,574	35,786

17 RELATED PARTY TRANSACTIONS

Under IAS 24, a party is related to an entity if:

- the party is a member of the key management personnel
- the party is a post-employment benefit plan for the benefit of employees of the entity.

The purpose of related party disclosures is to provide information on transactions and balances that could have an effect on the operations or financial position of an entity. For example, related parties may enter into transactions that unrelated parties would not and transactions between related parties may not be made at the same amounts as between unrelated parties.

Disclosures are required for:

- the nature of the related party relationship
- key management personnel compensation
- information about the transactions and outstanding balances necessary for an understanding of the potential effect of the relationship on the financial statements

Nottinghamshire County Council is the administering authority for the Local Government Pension Scheme (LGPS) within Nottinghamshire and is one of the major employers within the scheme. Information regarding key management personnel is provided within the main accounts of Nottinghamshire County Council. The proportion recharged to the Pension Fund is as follows:

Post Holder information (Post title and name (where applicable))	Note	Salary (including fees & allowances £	Expenses £	Compensation for Loss of Office £	Employer Pension contribution £	Total Remuneration £
Corporate Director of Resources	1	3,095	29	11,905	687	15,716
Service Director (Customers, Governance and Employees)	3	14,077	-	-	3,125	17,202
Service Director (Finance, Infrastructure & Improvement)	2	13,429	152	-	2,981	16,563

*Pension Contributions are estimated at 22.2% to account for the pensions deficit

1. The Corporate Director of Resources post was deleted from the establishment in July 2018. The post had the statutory responsibility of Monitoring Officer.
2. The post of Service Director (Finance, Infrastructure and Improvement) has the statutory responsibility of S151 Officer.
3. The Service Director for Customers, Governance and Employees gained responsibility for the Monitoring Officer post in July 2018.

Members and officers of the Council involved in managing the Fund are allowed to be members of the LGPS. All transactions between Nottinghamshire County Council and the Fund and all benefit payments from the Fund are in accordance with the regulations governing the LGPS. There are no transactions therefore that are made on a different basis from those with non-related parties.

LGPS Central Ltd has been established to manage investment assets on behalf of nine LGPS funds across the Midlands. It is jointly owned in equal shares by the eight administering authorities participating in the Pool.

£1,315,000 has been invested in share capital and £685,000 in a loan to LGPS Central Ltd. These are the balances at year end. The fund earned £36,000 in interest during the year and £43,000 was owed to the fund at the end of the year.

LGPS Central Ltd commenced operations in April 2018 and during the year has charged £860,000 in operating and investment management costs, of which £161,000 was outstanding at year end.

Nottinghamshire Pension Fund has guaranteed a share of the pension liability relating to employees of LGPS Central Ltd that transferred into the company on creation. A Pensions Entry debt of £24,000 arose which was outstanding at year end.

Set up costs in the creation of LGPS Central Ltd were borne by West Midlands Pension Fund and then recharged equally to the administering authorities. A total of £501,760 was refunded to Nottinghamshire Pension Fund by LGPS Central Ltd during the year reflecting the cost of setting up the enterprise to the end of March 2018.

Over time, LGPS Central Ltd will manage an increasing proportion of the Pension Fund's investments. At 31 March 2019 investments worth £18.963m (31 March 2018 £0) were invested in LGPS Central Ltd funds.

Governance Compliance Statement

1 Introduction

- 1.1 This is the governance compliance statement of the Nottinghamshire pension fund which is part of the Local Government Pension Scheme and administered by Nottinghamshire County Council (the council). The statement has been prepared as required by the Local Government Pension Scheme (Administration) Regulations 2013.

2 Governance Arrangements

- 2.1 Under the terms of the council's constitution, the functions of the council as administering authority of the pension fund are delegated to the Nottinghamshire Pension Fund Committee. This is in line with guidance from the Chartered Institute of Public Finance & Accountancy (CIPFA).
- 2.2 The Nottinghamshire Pension Fund Committee meets eight times a year and its members act in a quasi-trustee capacity. Under the constitution, it is responsible for Administering the Nottinghamshire Pension Fund, including investments and management of pension funds.
- 2.3 The Committee also has responsibility for investment performance management of the Fund Managers. It may appoint a working party to consider future policy and development.
- 2.4 The Committee has the further responsibility for matters relating to the administration of the Pension Fund.
- 2.5 The number of voting members of the Nottinghamshire Pension Fund Committee is determined by the Council at its annual meeting.

3 Functions and Responsibilities

- 3.1 The Nottinghamshire Pension Fund Committee separately approves the pension fund's Funding Strategy Statement, Investment Strategy Statement, Risk Management Strategy, Administration Strategy Statement and Communications Strategy Statement.
- 3.2 The Funding Strategy Statement sets out the aims and purpose of the pension funds and the responsibilities of the administering authority as regards funding the scheme. Funding is the making of advance provision to meet the cost of accruing benefit promises and the long term objective is to achieve and then maintain assets equal to 100% of projected accrued liabilities. These responsibilities are delegated to the Nottinghamshire Pension Fund Committee.
- 3.3 The Investment Strategy Statement sets out more detailed responsibilities relating to the overall investment strategy of the funds including the proposed asset allocation, restrictions on investment types, the type of investment management used and performance monitoring. It also covers the fund's policy on trustee training and expenses and states the fund's approach to socially responsible investment and corporate governance issues. These responsibilities are delegated to the Nottinghamshire Pension Fund Committee.
- 3.4 Financial Regulations specify that the Service Director (Finance, Infrastructure & Improvement) is responsible for arranging the investment of the Pension Fund. Operational matters falling under this responsibility are exercised by the Senior Accountant (Pensions & Treasury Management).

3.5 The Risk Management Strategy aims to reduce or eliminate risks which may jeopardise the achievement of the Fund's key objectives. It includes a risk register that identifies and prioritises the main risks to the operation of the fund. Responsibility for the Risk Management Strategy is delegated to the Nottinghamshire Pension Fund Committee.

3.6 The Communications Strategy Statement details the overall strategy for involving stakeholders in the pension funds. The stakeholders identified are:

- trustees
- current and prospective scheme members
- scheme employers
- administration staff
- other bodies.

Responsibility for the communications strategy is delegated to the Nottinghamshire Pension Fund Committee.

4 Representation

4.1 The Nottinghamshire Pension Fund Committee has 9 voting members all of whom are current county councillors. The political make-up of the committee is in line with the current council and the chair is normally appointed by Council. These members have full voting rights.

4.2 In addition the Committee also has 10 members consisting of the following representatives:

- Nottingham City Council (3)
- Nottinghamshire Local Authorities' Association (2)
- scheduled and admitted bodies (1)
- trade unions (2)
- Pensioner representatives (2)

4.3 Meetings of the Committee are also attended by officers of the County Council and an independent adviser. This ensures the Committee has access to "proper advice" as required by the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009. Proper advice is defined as the advice of a person who is reasonably believed to be qualified by their ability in and practical experience of financial matters. This includes any such person who is an officer of the administering authority.

5 Stakeholder Engagement

5.1 An annual meeting of the pension funds is held in October to which all employer representatives and scheme members are welcome. The purpose of the meeting is to report on investment performance and current issues of concern to the pension funds.

5.2 A number of other initiatives to involve stakeholders are currently in place including:

- regular employers meetings
- meetings between employers and actuaries
- Nottinghamshire Finance Officers meetings
- the annual report for the pension fund
- Pensions road shows at various venues around the County
- dedicated pension fund website.

6 Review and Compliance with Best Practice

6.1 This statement will be kept under review and will be revised and published following any material change in the governance arrangements of the pension funds.

6.2 The regulations required a statement as to the extent to which the governance arrangements comply with guidance issued by the Secretary of State. The guidance contains best practice principles and so are shown below with the assessment of compliance.

Ref.	Principles	Compliance and Comments
A	Structure	
a.	The management of the administration of benefits and strategic management of fund assets clearly rests with the main committee established by the appointing council.	Fully compliant
b.	That representatives of participating LGPS employers, admitted bodies and scheme members (including pensioner and deferred members) are members of either the main or secondary committee established to underpin the work of the main committee.	Fully compliant
c.	That where a secondary committee or panel has been established, the structure ensures effective communication across both levels.	Not applicable
d.	That where a secondary committee or panel has been established, at least one seat on the main committee is allocated for a member from the secondary committee or panel.	Not applicable
B	Representation	
a.	That all key stakeholders are afforded the opportunity to be represented, within the main or secondary committee structure. These include: <ul style="list-style-type: none"> i employing authorities (including non-scheme employers, eg, admitted bodies); ii scheme members (including deferred and pensioner scheme members), iii independent professional observers, and iv expert advisors (on an ad-hoc basis). 	Fully compliant
b.	That where lay members sit on a main or secondary committee, they are treated equally in terms of access to papers and meetings, training and are given full opportunity to contribute to the decision making process, with or without voting rights.	Fully compliant
C	Selection and role of lay members	
a.	That committee or panel members are made fully aware of the status, role and function they are required to perform on either a main or secondary committee.	Fully compliant All members of the Nottinghamshire Pension Fund Committee are aware of their responsibilities for the oversight of the funds.
D	Voting	
a.	The policy of individual administering authorities on voting rights is clear and transparent, including the justification for not extending voting rights to each body or group represented on main LGPS committees.	Fully compliant

Ref	Principles	Compliance and Comments
E	Training/facility time/expenses	
a.	That in relation to the way in which statutory and related decisions are taken by the administering authority, there is a clear policy on training, facility time and reimbursement of expenses in respect of members involved in the decision-making process.	Fully compliant Members are encouraged to receive suitable training to help them discharge their responsibilities including attending training courses, conferences and meetings. Travel and subsistence arrangements are those which prevail for the County Council.
b.	That where such a policy exists, it applies equally to all members of committees, sub-committees, advisory panels or any other form of secondary forum.	Fully compliant
F	Meetings (frequency/quorum)	
a.	That an administering authority's main committee or committees meet at least quarterly.	Fully compliant The Nottinghamshire Pension Fund Committee meets 8 times a year.
b.	That an administering authority's secondary committee or panel meet at least twice a year and is synchronised with the dates when the main committee sits.	Not applicable
c.	That administering authorities who do not include lay members in their formal governance arrangements, provide a forum outside of those arrangements by which the interests of key stakeholders can be represented.	Not applicable
G	Access	
a.	That subject to any rules in the councils constitution, all members of main and secondary committees or panels have equal access to committee papers, documents and advice that falls to be considered at meetings of the main committee.	Fully compliant
H	Scope	
a.	That administering authorities have taken steps to bring wider scheme issues within the scope of their governance arrangements.	Fully compliant
I	Publicity	
a.	That administering authorities have published details of their governance arrangements in such a way that stakeholders with an interest in the way in which the scheme is governed, can express an interest in wanting to be part of those arrangements.	Fully compliant The governance compliance statement is published on the pension fund website and is included with the relevant committee report (available on the County Council website).

Funding Strategy Statement

Introduction

- 1 This is the Funding Strategy Statement (FSS) for the Nottinghamshire County Council Pension Fund. It has been prepared in accordance with Regulation 58 of the Local Government Pension Scheme Regulations 2013 (“the Regulations”) and describes Nottinghamshire County Council’s strategy, in its capacity as Administering Authority, for the funding of the Nottinghamshire County Council Pension Fund (“the Fund”).
- 2 This statement has regard to the guidance set out in the document “Preparing and Maintaining a Funding Strategy Statement” published by CIPFA in February 2016. The statement also has regard to the Investment Strategy Statement published by the Administering Authority in March 2017.
- 3 The Statement describes a single strategy for the Fund as a whole. The Fund Actuary, Barnett Waddingham LLP, has been consulted on the contents of this Statement.

Purpose of the Funding Strategy Statement

- 4 The purpose of this Funding Strategy Statement is to explain the funding objectives of the Fund and in particular:
 - How the costs of the benefits provided under the Local Government Pension Scheme (the “Scheme”) are met through the Fund.
 - The objectives in setting employer contribution rates.
 - The funding strategy that is adopted to meet these objectives.

Aims and Purpose of the Fund

- 5 The aims of the Fund are to:
 - Manage employers’ liabilities effectively and ensure that sufficient resources are available to meet all liabilities as they fall due.
 - Achieve and maintain Fund solvency and long-term cost efficiency at reasonable cost to taxpayers, scheduled, resolution and admitted bodies, and enable contribution rates to be kept as nearly constant as possible where practical.
 - Seek returns on investment within reasonable risk parameters.
- 6 The purpose of the Fund is to:
 - Pay pensions, lump sums and other benefits provided under the Regulations.
 - Meet the costs associated in administering the Fund.
 - Receive contributions, transfer values and investment income.

Key Parties

- 7 The key parties involved in the funding process and their responsibilities are as follows.

The Administering Authority

- 8 The Administering Authority for the Pension Fund is Nottinghamshire County Council. The main responsibilities of the Administering Authority are to:
 - Collect employee and employer contributions.
 - Invest the Fund’s assets, while ensuring cash is available to meet liabilities as and when they fall due.
 - Pay the benefits due to Scheme members.
 - Take measures to safeguard the Fund against the consequences of employer default.

- Manage the actuarial valuation process in conjunction with the Fund Actuary, and enable the Local Pensions Board to review the valuation process as they see fit.
- Prepare and maintain this FSS and the Investment Strategy Statement (ISS) after consultation with other interested parties as appropriate.
- Monitor all aspects of the Fund's performance and funding.
- Effectively manage any potential conflicts of interest arising from its dual role as both Administering Authority and Scheme employer.

Scheme Employers

9 In addition to the Administering Authority, a number of other Scheme Employers, including Admission Bodies, participate in the Fund. The responsibilities of each Scheme Employer that participates in the Fund, including the Administering Authority, are to:

- Collect employee contributions and pay these together with their own employer contributions certified by the Fund Actuary to the Administering Authority within the statutory timescales, including any exit payments on ceasing participation in the Fund.
- Notify the Administering Authority of any new Scheme members and any other membership changes promptly.
- Develop a policy on certain discretions and exercise those discretions as permitted under the Regulations.
- Meet the costs of any augmentations or other additional costs in accordance with agreed policies and procedures.
- Notify the Administering Authority of significant changes in the employer's structure or membership.

Fund Actuary

10 The Fund Actuary for the Pension Fund is Barnett Waddingham LLP. The main responsibilities of the Fund Actuary are to:

- Advise interested parties on funding strategy and completion of actuarial valuations in accordance with the FSS and the Regulations, and in particular, set contribution rates in order to secure the Fund's solvency and long-term cost efficiency, having regard to the desirability of maintaining as nearly constant a primary contribution rate as possible.
- Advise on other actuarial matters affecting the financial position of the Fund, including bulk transfers, employer exit valuations, etc.
- Ensure that the administering authority is aware of any professional guidance or other professional requirements which may be of relevance to his or her role in advising the Fund.

Solvency Issues, Target Funding Levels and Long-term Cost Efficiency

Funding Objectives

11 The funding objectives are to:

- Set levels of employer contribution that will build up a fund of assets that will be sufficient to meet all future benefit payments from the Fund as they fall due.
- Ensure the solvency and long-term cost efficiency of the Fund, while having regard to the desirability of maintaining as nearly constant employer contribution rates where practical.
- Set contributions to target a 100% funding level over an appropriate time period using appropriate actuarial assumptions.

Funding Strategy

- 12 The factors affecting the Fund's finances are constantly changing, so it is necessary for its financial position and the contributions payable to be reviewed from time to time by means of an actuarial valuation to check that the funding objectives are being met.
- 13 The actuarial valuation involves a projection of future cash flows to and from the Fund. The main purpose of the valuation is to determine the level of employers' contributions that should be paid to ensure that the existing assets and future contributions will be sufficient to meet all future benefit payments from the Fund.
- 14 The last actuarial valuation was carried out as at 31 March 2016 with the assets of the Fund found to be 87% of the accrued liabilities of the Fund.

Funding Method

- 15 The key objective in determining employer's contribution rates is to establish a funding target and then set levels of employer contribution to meet that target over an agreed period.
- 16 The funding target is to have sufficient assets in the Fund to meet the accrued liabilities for each employer in the Fund. The funding target may, however, depend on certain employer circumstances and in particular, whether an employer is an "open" employer – one which allows new staff access to the Fund, or a "closed" employer which no longer permits new staff access to the Fund. The expected period of participation by an employer in the Fund may also affect the chosen funding target.

- 17 For open employers, the actuarial funding method that is adopted is known as the Projected Unit Funding Method which considers separately the benefits in respect of service completed before the valuation date ("past service") and benefits in respect of service expected to be completed after the valuation date ("future service"). This approach focuses on:
 - The past service funding level of the Fund. This is the ratio of accumulated assets to liabilities in respect of past service. It makes allowance for future increases to members' pay for pensions in payment. A funding level in excess of 100 per cent indicates a surplus of assets over liabilities; while a funding level of less than 100 per cent indicates a deficit.
 - The future service funding rate which is the level of contributions required from the individual employers which, in combination with employee contributions, is expected to support the cost of benefits accruing in future.
- 18 The key feature of this method is that, in assessing the future service cost, the contribution rate represents the cost of one year's benefit accrual.
- 19 For closed employers, the funding method adopted is known as the Attained Age Method. The key difference between this method and the Projected Unit Method is that the Attained Age Method assesses the average cost of the benefits that will accrue over the remaining expected working lifetime of active members.

Valuation Assumptions and Funding Model

- 20 In completing the actuarial valuation it is necessary to formulate assumptions about the factors affecting the Fund's future finances such as inflation, pay increases, investment returns, rates of mortality, early retirement and staff turnover.

21 The assumptions adopted at the valuation can therefore be considered as:

- The statistical assumptions which are essentially estimates of the likelihood of benefits and contributions being paid.
- The financial assumptions which will determine the estimates of the amount of benefits and contributions payable and their current or present value. The base market statistics used for the financial assumptions are smoothed around the valuation date so that the market conditions used are the average of the daily observations over the three months before and the three months after the valuation date.

Future Investment Returns/Discount Rate

- 23 To determine the value of accrued liabilities and derive future contribution requirements it is necessary to discount future payments to and from the Fund to present day values. The discount rate that is adopted will depend on the funding target adopted for each employer.
- 24 For open employers, the discount rate that is applied to all projected liabilities reflects a prudent estimate of the rate of investment return that is expected to be earned from the underlying investment strategy by considering average market yields in the six months straddling the valuation date. The discount rate so determined may be referred to as the “ongoing” discount rate.

Assumption	Derivation	Value at 31 March 2016
Future Price Inflation (RPI)	Smoothed 20 year point on the Bank of England implied Retail Price Index inflation curve as at 31 March 2016.	3.3% p.a.
Future Price Inflation (CPI)	RPI less 0.9% per annum to reflect the differences in the indices.	2.4% p.a.
Salary increases	Assumed to be in line with CPI until 31 March 2020 and then CPI plus 1.5% p.a. thereafter.	2.4% p.a. until 31 March 2020 then 3.9% p.a.
Discount rate	Based on the long-term investment strategy of the Fund, with deductions for expenses and prudence.	5.4% p.a.
Post-retirement mortality	S2PA tables with a multiplier of 100% for males and 90% for females, projected into the future with the 2015 CMI Model with a long-term rate of improvement of 1.5% p.a.	n/a

22 A summary of the key assumptions is included in the following table and can be found in the actuarial valuation report as at 31 March 2016. Further details regarding the derivation of these assumptions can be found in the Fund Actuary’s initial results and assumptions advice to the Fund dated 5 October 2016.

25 For closed employers, an adjustment may be made to the discount rate in relation to the remaining liabilities, once all active members are assumed to have retired if at that time (the projected “termination date”), the employer becomes an exiting employer under Regulation 64. The Fund Actuary may incorporate such an adjustment after consultation with the Administering Authority.

26 The adjustment to the discount rate for closed employers is to set a higher funding target at the projected termination date, so that there are sufficient assets to fund the remaining liabilities on a “minimum risk” rather than on an ongoing basis. The aim is to minimise the risk of deficits arising after the termination date.

Asset Valuation

27 For the purposes of the valuation, the asset value used is the market value of the accumulated Fund at the valuation date adjusted to reflect average market conditions during the six months straddling the valuation date.

Deficit Recovery/Surplus Amortisation Periods

28 Whilst one of the funding objectives is to build up sufficient assets to meet the cost of benefits as they accrue, it is recognised that at any particular point in time, the value of the accumulated assets will be different from the value of accrued liabilities, depending on how the actual experience of the Fund differs from the actuarial assumptions. Accordingly the Fund will normally either be in surplus or in deficit.

29 Where the actuarial valuation reveals a deficit in respect to a particular employer then the levels of required employer contributions will include an adjustment to fund the deficit over a specified period. Each employer’s recovery period is considered individually, unless they are part of a pool (see Pooling of Individual Employers). Past service deficit contributions are generally paid as monetary amounts but may be paid as a percentage of payroll, subject to the Administering Authority agreeing this approach.

30 At the 2016 actuarial valuation, no employers’ deficit recovery periods were greater than 20 years.

31 Where an employer’s funding position has improved in the inter-valuation period, but the employer is still in deficit, the employer may be required to maintain the previous total contribution level so that the expected deficit recovery period reduces.

32 Incremental phasing-in (stepping) of contribution increases may be considered for some employer types where proposed increases are large, with target rates to be achieved in no later than 3 years. Where stepping is agreed to, employers are instructed that the difference between the employer contributions with stepping and the employer contributions without stepping will need to be repaid later in the recovery period.

33 Employers in surplus on their funding method will generally pay the future service rate although the surplus may be released back to the employer through an adjustment to their contribution rate. The Fund Actuary will consider each employer separately when deciding whether surplus amortisation is appropriate.

Pooling of Individual Employers

34 The general policy of the Fund is that each individual employer should be responsible for the costs of providing pensions for its own employees who participate in the Fund. Accordingly, contribution rates are set for individual employers to reflect their own particular circumstances.

35 However, certain groups of individual employers are pooled for the purposes of determining contribution rates to recognise common characteristics or where the number of Scheme members is small.

36 The main purpose of pooling is to produce more stable employer contribution levels in the longer term whilst recognising that ultimately there will be some level of cross-subsidy of pension cost amongst pooled employers.

37 Currently, other than Scheme employers that are already legally connected, there are the following pools:

- Small Scheduled Bodies pool
- Grouped Admission Bodies pool
- Fund Academies pool

Cessation Valuations

38 On the cessation of an employer's participation in the Scheme, the Fund Actuary will be asked to make a termination assessment, as required by the Regulations. Any deficit in the Fund in respect of the employer will be due to the Fund as a termination contribution, unless it is agreed by the Administering Authority and the other parties involved that the assets and liabilities relating to the employer will transfer within the Fund to another participating employer.

39 In assessing the financial position on termination, the Fund Actuary may adopt a discount rate based on gilt yields and adopt different assumptions from those used at the previous valuation in order to protect the other employers in the Fund from having to fund any future deficits which may arise from the liabilities that will remain in the Fund.

Links to Investment Policy

40 The investment strategy and the funding strategy are linked by the strategic asset allocation of the Fund, which has been set following advice from the Fund's investment adviser and with regard, amongst other considerations, the maturity profile of the Fund.

41 The actuarial valuation involves a projection of future cashflows from the Fund and these cashflows are discounted to the current time, using the discount rate, to obtain a single figure for the value of the past service liabilities. This figure is the amount of money, which if invested now, would be sufficient to make those payments in future provided that the assumptions made during the valuation

were borne out in practice (in particular, if the future investment return was equal to the discount rate used).

42 The discount rate is based on the expected long-term future investment return, using the long-term strategic allocation set out in the Investment Strategy Statement, with a deduction for expenses and for prudence.

Risks and Counter Measures

43 Whilst the funding strategy attempts to satisfy the funding objectives of ensuring sufficient assets to meet pension liabilities and stable levels of employer contributions, it is recognised that there are risks that may impact on the funding strategy and hence the ability of the strategy to meet the funding objectives.

44 The major risks to the funding strategy are financial, although there are other external factors including demographic risks, regulatory risks and governance risks.

Financial Risks

45 The main financial risk is that the actual investment strategy fails to produce the expected rate of investment return (in real terms) that underlies the funding strategy. This could be due to a number of factors, including market returns being less than expected and/or the fund managers who are employed to implement the chosen investment strategy failing to achieve their performance targets.

46 The valuation results are most sensitive to the real discount rate. Broadly speaking an increase/decrease of 0.1% per annum in the real discount rate will decrease/increase the valuation of the liabilities by 2%, and decrease/increase the required employer contribution by around 1% of payroll.

47 However, the Pension Fund Committee regularly monitors the investment returns achieved by the fund managers and receives advice from officers and independent advisers on investment strategy.

48 The Committee may also seek advice from the Fund Actuary on valuation related matters. In addition, the Fund Actuary may provide funding updates between valuations to check whether the funding strategy continues to meet the funding objectives.

Demographic Risks

- 49 Allowance is made in the funding strategy via the actuarial assumptions for a continuing improvement in life expectancy. However, the main demographic risk to the funding strategy is that it might underestimate the continuing improvement in longevity. For example, an increase of one year to life expectancy of all members in the Fund will reduce the funding level by approximately 1%.
- 50 The actual mortality of pensioners in the Fund is monitored by the Fund Actuary at each actuarial valuation and assumptions are kept under review.
- 51 The liabilities of the Fund can also increase by more than has been planned as a result of early retirements. However, the Administering Authority monitors the incidence of early retirements and procedures are in place that require individual employers to pay additional amounts into the Fund to meet any additional costs arising from early retirements.

Regulatory Risks

- 52 The benefits provided by the Scheme and employee contribution levels are set out in Regulations determined by central Government. Regulations also place certain limitations on how the assets can be invested. The tax status of the invested assets is also determined by the Government.
- 53 The funding strategy is therefore exposed to the risks of changes in the Regulations governing the Scheme and changes to the tax regime which may affect the cost to individual employers participating in the Scheme.

54 However, the Administering Authority participates in any consultation process of any proposed changes in Regulations and seeks advice from the Fund Actuary on the financial implications of any proposed changes.

Employer Risks

- 55 Many different employers participate in the Fund. Accordingly, it is recognised that a number of employer-specific events could impact on the funding strategy including:
- Structural changes in an individual employer's membership.
 - An individual employer deciding to close the Scheme to new employees.
 - An employer ceasing to exist without having fully funded their pension liabilities.
- 56 The Administering Authority monitors the position of employers participating in the Fund, particularly those which may be susceptible to the events outlined, and takes advice from the Fund Actuary when required.
- 57 In addition, the Administering Authority keeps in close touch with all individual employers participating in the Fund to ensure that, as Administering Authority, it has the most up to date information available on individual employer situations. It also keeps individual employers briefed on funding and related issues.

Monitoring and Review

- 58 This FSS is reviewed formally, in consultation with the key parties as appropriate, at least every three years to tie in with the triennial actuarial valuation process.
- 59 The Administering Authority also monitors the financial position of the Fund between actuarial valuations and may review the FSS more frequently if necessary.

Investment Strategy Statement

Introduction

- 1 The County Council is an administering authority of the Local Government Pension Scheme (the “Scheme”) as specified by the Local Government Pension Scheme Regulations 2013 (“the LGPS Regulations”). It is required by Regulation 53 of the LGPS Regulations to maintain a pension fund for the Scheme.
- 2 The Local Government Pension Scheme (Management and Investment of Funds) Regulations 2016 (the “Investment Regulations”) govern the management of the pension fund and the investment of fund money. According to Regulation 7 of the Investment Regulations an administering authority must formulate an investment strategy which must be in accordance with guidance issued from time to time by the Secretary of State. It must publish a statement of its investment strategy and must review, and if necessary revise, its investment strategy at least every three years.
- 3 The Investment Strategy Statement must include:
 - a) A requirement to invest fund money in a wide variety of investments.
 - b) The authority’s assessment of the suitability of particular investments and types of investments.
 - c) The authority’s approach to risk, including the ways in which risks are to be assessed and managed.
 - d) The authority’s approach to pooling investments, including the use of collective investment vehicles and shared services.
 - e) The authority’s policy on how social, environmental and corporate governance considerations are taken into account in the selection, non-selection, retention and realisation of investments.

- f) The authority’s policy on the exercise of the rights (including voting rights) attaching to investments.

Purpose of the Principles

- 4 The purpose of the Fund is to:
 - Pay pensions, lump sums and other benefits provided under the LGPS Regulations.
 - Meet the costs associated in administering the Fund.
 - Receive contributions, transfer values and investment income.
 - Invest any Fund money not needed immediately to make payments.
- 5 The following principles underpin the Fund’s investment activity:
 - The Fund will aim to be sufficient to meet all its obligations on a continuing basis.
 - The Fund will be invested in a diversified range of assets.
 - Proper advice on diversification and the suitability of types of investment will be obtained and considered
 - The Fund will aim to conduct its business and to use its influence in a long term responsible way.

Key Parties

- 6 The key parties involved in the Fund’s investments and their responsibilities are as follows.

The Administering Authority

- 7 The Administering Authority for the Pension Fund is Nottinghamshire County Council. Under the terms of the Council’s constitution, the functions of the Council as administering authority are delegated to the Nottinghamshire Pension Fund Committee. The full governance arrangements of the Fund are detailed in the Fund’s Governance Compliance Statement.

- 8 The members of the Committee are not trustees (as the LGPS is a statutory scheme) but do have fiduciary duties towards the scheme members and employers.

LGPS Central

- 9 LGPS Central (“the Pool”) is the asset pool which Nottinghamshire Pension Fund jointly owns with seven other LGPS funds in order to meet the government’s criteria for investment reform issued in November 2015. The Pool has obtained FCA regulation and manages collective investment vehicles on behalf of the participating funds.

Committee Members

- 10 The Committee Members recognise their full responsibility for the oversight of the Fund, and operate to a Code of Conduct. They shall:
- Determine the overall asset allocation and investment strategy of the Fund.
 - Determine the type of investment management to be used and, until funds are transferred to the Pool, appoint and dismiss fund managers.
 - Receive regular reports on performance from the main fund managers and question them regularly on their performance.
 - Receive independent reports on the performance of fund managers on a regular basis.
 - Be encouraged to receive suitable training to help them discharge their responsibilities and attend such training courses, conferences and meetings that deliver value for money to the Fund.

Chief Finance Officer

- 11 Under the Council’s constitution, the Service Director (Finance, Infrastructure & Improvement) is designated the Council’s Chief Finance Officer (also known as the Section 151 Officer). The Group Manager (Financial Services) is the deputy Section 151 Officer. Financial Regulations specify that the Section 151 Officer is responsible for arranging the investment of the Pension Fund. Operational matters falling under this responsibility are exercised by the Senior Accountant (Pensions & Treasury Management).
- 12 Authorised signatories for operational matters relating to pension fund investments are:
- Service Director (Finance, Infrastructure & Improvement)
 - Group Manager (Financial Services)
 - Senior Accountant (Pensions & Treasury Management)
 - Investments Officer
- 13 Representatives of the Service Director (Finance, Infrastructure & Improvement) provide advice to Committee members and attend meetings of the Pension Fund Committee as required.

Independent Adviser

- 14 The Fund has an Independent Adviser who attends meetings of the Pension Fund Committee and Pensions Working Party as required. This is considered best practice in accordance with the requirements for “proper advice” in the governing regulations. The Independent Adviser is appointed by the Adminstrating Authority following appropriate consultation with the Committee.

15 The independent adviser is engaged to provide advice on:

- The objectives and policies of the Fund.
- Investment strategy and asset allocation.
- The Fund's approach to responsible investment.
- Choice of benchmarks.
- Investment management methods and structures.
- Choice of managers and external specialists.
- Activity and performance of investment managers including the Pool and the Fund.
- The risks involved with existing or proposed investments.
- The Fund's current property portfolio and any proposals for purchases, sales, improvement or development.
- New developments and opportunities in investment theory and practice.
- Amendment and review of statutory policy documents.

Asset Allocation

16 It is widely recognised that asset allocation is the most important factor in driving long term investment returns. The balance between different asset classes depends largely on the expected risk/return profile for each asset class and the target return for the Fund. It is also recognised that investment returns play a significant role in defraying the cost of providing pensions by mitigating the contributions required from employers.

17 Employers contributions are determined as part of the regular actuarial valuation of the Fund. Historically these have taken place every three years and a valuation is taking place as at March 2019. Going forward, they are expected to take place every four years. The actuarial valuation involves a projection of future cash flows to and from the Fund. Its main purpose is to determine the level of employers' contributions that should ensure that the existing assets and future contributions will be sufficient to meet all future benefit payments from the Fund. This is the main funding objective as set out in the Funding Strategy Statement.

18 The Fund Actuary estimates the future cash flows which will be paid from the Fund for the benefits relating to service up to the valuation date. They then discount these projected cash flows using the discount rate to get a single figure for the value of the past service liabilities. This figure is the amount of money which, if invested now, would be sufficient to make these payments in future provided that the future investment return was equal to at least the discount rate used.

19 The discount rate is based on the expected long term future investment returns from various asset classes. These are likely to be adjusted following the March 2019 valuation, but are currently as follows:

Asset Class	Expected Return (pa)
Equities	7.4%
Gilts	2.4%
Other Bonds	3.3%
Property	5.9%
Cash	1.8%
Discount Rate	5.4%
Fund Target Return	6.0%

- 20 At the March 2016 valuation, the Fund was assessed to have a deficit of £621m and a funding level of 87%. Deficit recovery contributions have been certified for the majority of employers but any returns in excess of the discount rate will help to recover the Fund to a fully funded position. The Fund therefore sets its asset allocation to target an annual return rate of 6%. These figures and the asset allocation may need to be reviewed when the results of the March 2019 valuation are known.
- 21 The agreed asset allocation ranges for the Fund are shown below, along with the Fund's long term strategic target allocations.

Asset Class	Allocation Ranges	Strategic Benchmark	
Equities	55% to 75%	FTSE All Share World	68%
Property	5% to 25%	IPD annual	15%
Bonds	10% to 25%	FTSE UK All Stock	15%
Cash	0% to 10%	LIBID 7 Day	2%

Within these asset classes is an allocation of 8% to infrastructure.

- 22 This asset allocation is aimed at achieving appropriate returns to meet the Fund Target Return within acceptable risk parameters. The Fund's actual allocation may vary from this according to market circumstances, relative performance and cash flow requirements. The ranges will be kept under regular review and, if it appears likely that these limits might be breached because of market movements, reference will be made to a meeting of the Pensions Working Party for advice.

- 23 The asset allocation currently favours "growth" assets, primarily equities, as they are expected to deliver higher returns to help the Fund achieve the Fund Target Return. Net additions from members (contributions received less benefits paid) are now expected to be negative for the foreseeable future, so the Fund also invests in "income" assets which will deliver secure and predictable income over the long term. These may include infrastructure, property and fixed income. Inflation is a long-term risk factor and the Fund explicitly seeks investments in this category which will help to mitigate that. Finally, the Fund allocates to liquid assets such as cash and short-term bonds in order to ensure cash is always available to pay benefits at any time. This allows the Fund to continue to implement a long-term investment strategy.
- 24 The asset allocation is regularly reviewed to consider whether it is appropriate to change the mix of growth versus income assets.

Investment Strategy

Requirement to invest fund money in a wide variety of investments

- 25 In setting asset allocation to deliver the Fund Return Target the Fund will seek as far as possible to invest in a diversified range of uncorrelated assets in order to reduce the level of investment risk.

Types of investments

- 26 Subject to the LGPS regulations on allowable investments the Fund may invest in a wide range of assets and strategies including quoted equity, government and non-government bonds, currencies, money markets, commodities, traded options, financial futures and derivatives, alternative strategies, private equity and debt markets, infrastructure and property. Investment may be made either in-house, indirectly (via funds) in physical assets or using derivatives, or through external managers including the Pool.

The fund may use external managers to carry out stock lending ensuring suitable controls/ risk parameters are put in place to prevent losses. Where an asset class/strategy is not expected to help in delivering the risk adjusted investment return required it will not be held.

Approach to investment

- 27 The Fund bases its approach to investment on the investment beliefs set out in Appendix A. As the Pool takes over implementation of the investments, some of them will become less relevant to the Pension Fund Committee's decisions but they should be seen as the fundamental core of how the Fund's assets are invested.

Approach to risk, including the ways in which risks are to be assessed and managed

- 28 The risk tolerance of the Fund is agreed with the Pension Fund Committee, the investment team and independent adviser through the setting of investment beliefs, funding and investment objectives. The Fund will only take sufficient risk in order to meet the Fund Target Return set out in paragraph 19, currently 6%.
- 29 The risks the Fund is exposed to include investment, operational, governance, currency, demographic and funding risks. These risks are identified, measured, monitored and then managed. This is carried out using risk registers with section responsibility and oversight from the Head of Governance and Chief Risk Officer. Plans are put in place to mitigate these risks so far as that is possible. Details are given in Appendix B.

Approach to pooling investments

- 30 The Fund is entering the Pool with the understanding that the pooled investments will benefit from lower investment costs, greater investment capability, improved ability to act as a responsible investor and access to more uncorrelated asset classes. Becoming an FCA registered investment manager is expected to lead to improved governance, transparency and reporting giving the Pension Fund assurance that its investment strategy is being carried out effectively.
- 31 It is expected that most of the Fund's assets will be transferred to the Pool over a period of time. The Pool is setting up sub-funds which the Fund and other partners expect to invest in. It is likely that this process will take place over a period of at least two or three years, with the timing being dependent on market conditions and operational circumstances. Where there are financial or other barriers to transfers, assets may remain in the Fund's ownership.
- 32 Governance of the Pool will primarily take place through the Shareholders Forum, governed by a Shareholders Agreement and operating under company law, which will have formal decision making powers. Nottinghamshire County Council will have equal voting rights alongside the other participating funds and unanimous decisions will be required on key strategic matters. These are specified in the Shareholders Agreement and Articles of Association, and include the appointment and dismissal of the company's senior executives, approval of the company's strategic plan and any significant financial transactions, such as major acquisitions, lending or borrowing.
- 33 The degree of control to be exercised by the Shareholders through their reserved powers will be greater than is generally the case, in order to satisfy the Teckal exemption criteria and allow the company to undertake services on behalf of the investor funds without a formal procurement process.

- 34 The Joint Committee, established by an Inter-Authority Agreement, will be the forum for dealing with common investor issues and for collective monitoring of the performance of the pool against the agreed objectives of the Pool. It will, however, have no formal decision-making powers and recommendations will require the approval of individual authorities, in accordance with their local constitutional arrangements.
- 35 The government has made clear their expectation that pooled entities should be regulated by the Financial Conduct Authority (FCA) to ensure appropriate safeguards over the management of client monies. As such the Pool will be subject to ongoing oversight by the FCA and those holding key management positions, including the company directors, need to be approved persons, able to demonstrate appropriate knowledge, expertise and track record in investment management. The Directors of the Pool will also be personally liable for their actions and decisions.
- 36 Comprehensive programme governance arrangements are in place to ensure that costs and savings are managed in accordance with the agreed business case. The Section 151 Officers of each of the participating funds sit on the LGPS Practitioners Advisory Forum and regular meetings are held with the Chair and Vice-Chair of the Pension Fund Committee to ensure effective member oversight of progress and delivery. The Nottinghamshire Pension Fund Committee and the Local Pension Board are also being updated regularly on key developments and decisions.
- 37 Expert advisers have been appointed to provide support on legal matters, FCA registration, taxation and overall programme management.

Assessment of the suitability of investments

- 38 The policy of the Fund will be to treat the equity allocation as a block aimed at maximising the financial returns to the funds (and thus minimising employers' contributions) consistent with an acceptable level of risk. Other investments, such as property, fixed income, infrastructure or cash are aimed at mitigating risks which the Fund are exposed to, such as inflation, cashflow shortage, interest rate changes etc.
- 39 The Trustees have agreed an allocation to private equity and infrastructure. The allocation is based on committed amounts and, owing to the nature of these vehicles, the actual net investment level may be lower, perhaps significantly so. New investments will be made over time to target a commitment level of 12% of the Fund (within an allocation range up to 15% to allow for movements in market value).
- 40 Cash will be managed and invested on the Fund's behalf by the County Council in line with its treasury management policy. The policy is to invest surplus funds prudently, giving priority to security and liquidity rather than yield. If losses occur, however, the Fund will bear its share of those losses.
- 41 Pension fund cash is separately identified in a named account and specific investment decisions will be made on any surplus cash identified, based on the estimated cash flow requirements of the Fund. As the majority of cash is allocated to individual investment managers and may be called by them for investment at short notice, it is expected that the majority of cash will be placed on call or on short-term fixed deposits. Unallocated balances may be placed directly with the Fund's custodian.

Policy on social, environmental and corporate governance considerations

- 42 Social, environmental and corporate governance considerations are taken into account in the selection, non-selection, retention and realisation of investments. Non-financial factors may be considered to the extent that they are not significantly detrimental to the investment return and the Committee is satisfied that members share their concerns.
- 43 It is recognised that Environmental, Social, and Governance (“ESG”) factors including climate change are important to long term investment performance and the ability to achieve long term sustainable returns. The Pension Fund Committee considers the Fund’s approach to ESG in three key areas:
- a) Selection – considering the financial impact of ESG factors on its investments.
 - b) Stewardship – acting as responsible and active owners, through considered voting of shares and engaging with investee company management as part of the investment process. The Committee supports the Stewardship Code and intends to become a signatory.
 - c) Transparency & Disclosure – commitment to reporting the outcomes of the Fund’s stewardship activities.
- 44 In combination these three matters are often referred to as “Responsible Investment” or “RI” and this is the preferred terminology of the fund. Effective management of financially material ESG risks should support the requirement to protect investment returns over the long term. The Committee bases its decisions in this area on its RI Investment Beliefs, which are set out within Appendix A.
- 45 The Pool has a fully developed set of RI policies, which are in line with the Committee’s own investment beliefs. This includes a *Responsible Investment & Engagement Framework*, a *Statement of Compliance with the UK Stewardship Code*, and *Voting Principles*. The Fund, through the Pool’s Practitioners Advisory Forum, contributes to the development of these policies. As the Fund transfers assets to it, the Pool will take responsibility for ensuring that underlying managers meet with the requirements of this policy. The Pool will also engage directly with investee companies to promote sustainable business practices that reward long-term investors. Voting rights associated with assets invested through the Pool’s subfunds will be instructed according to the Pool’s agreed Voting Principles. The Pool will be required to report on its RI policy to the Committee on a regular basis in order to demonstrate the implementation of the agreed RI policies.
- 46 The Fund has articulated an investment belief on the relevance of climate change for financial markets (see Appendix A). In line with this belief, the Fund will actively look for investments which can be expected to benefit as a result of the long-term impacts of climate change.

Policy on the exercise of the rights (including voting rights) attaching to investments

- 47 Membership of the Local Authority Pension Fund Forum (LAPFF) helps Nottinghamshire Pension Fund to engage with companies to understand issues and to promote best practice. LAPFF was set up in 1990 and is a voluntary association of the majority of Local Authority pension funds based in the UK with combined assets of over £200bn. It exists to protect the long term investment interest of local authority pension funds, and to maximise their influence as shareholders by promoting the highest standards of corporate governance and corporate responsibility amongst investee companies.
- 48 The Committee believes that voting is an integral part of the responsible investment and stewardship process. The Fund manages its ownership responsibilities through both its partnership with Pensions & Investment Research Consultants Ltd (PIRC) and via its investment managers. PIRC is a major independent corporate governance and shareholder advisory consultancy. PIRC exercises all the Funds voting rights in line with the PIRC proxy voting guidelines.
- 49 The Pool is a Tier 1 signatory to the Stewardship Code and it is the Fund's aspiration to follow suit.
- 50 PIRC reports quarterly on its voting activity, and these reports are available to Committee Members and the membership through the website. The availability of this information is stated in the Annual Report.

Other Issues

- 51 The Fund's assets are held in custody by a combination of an independent custodian, investment managers and in-house. The performance of fund managers will be measured against individual benchmarks and the overall fund, including cash returns, against the Fund Target Return. Performance will be measured by an independent agency. The statement of accounts will be audited by the County Council's external auditors.
- 52 The investment management arrangements of the Fund can be found in the latest annual report (available on the Fund's website, www.nottspf.org.uk). The Fund also publishes details of its holdings on the website on a quarterly basis.
- 53 This Investment Strategy Statement will be kept under review and will be revised following any material changes in policy.

Appendix A

Statement of Investment Beliefs

54 The Fund's investment beliefs outline key aspects of how it sets and manages its exposures to investment risk. They are as follows:

Financial market beliefs

- Return is related to risk but taking calculated risks does not guarantee returns. The actual outcome may be higher or lower than that expected.
- The Fund has a long term investment horizon and is able to invest in volatile and/ or illiquid investment classes in order to generate higher returns.
- Markets are dynamic and are not always efficient, and therefore offer opportunities for investors.
- Diversification is a key technique available to institutional investors for improving risk-adjusted returns.

Investment strategy/process beliefs

- Return and risk should be considered relative to the Fund's liabilities, funding position and contribution strategy. Risk should be viewed both qualitatively and quantitatively. Particular focus should be given to the risk of loss and also to the nature and likelihood of extreme events so that the Fund is not a forced seller of assets.
- Strategic asset allocation is a key determinant of risk and return, typically more important than manager or stock selection.
- Equities are expected to generate superior long-term returns relative to Government bonds.
- Alternative asset class investments are designed to further diversify the portfolio and improve its risk-return characteristics.

- Active management can add value over time, but it is not guaranteed and can be hard to access. Where generating 'alpha' is particularly difficult, passive management is preferred.
- Operational, counterparty and reputational risk need assessment and management, in addition to investment risk.
- Managing fees and costs matter, especially in low-return environments. Fee arrangements with our fund managers – as well as the remuneration policies of investee companies – should be aligned with the Fund's long-term interests.

Organisational beliefs

- Clear investment objectives are essential.
- Effective governance and decision-making structures that promote decisiveness, efficiency and accountability are effective and add value to the Fund.
- The Pension Fund Committee's fiduciary duty is to the members of the Pension Fund. While they are not trustees, they have trustee-like responsibilities.

Responsible investment beliefs

- Responsible investment is supportive of risk-adjusted returns over the long term, across all asset classes. As a long-term investor, the Fund should seek to invest in assets with sustainable business models across all asset classes.
- Responsible investment should be integrated into the investment processes of the Fund, the Pool, and underlying investment managers.
- A strategy of engagement rather than exclusion is more compatible with fiduciary duty, and is more supportive of responsible investment.

- Investee companies and asset managers with robust governance structures should be better positioned to handle the effects of shocks and stresses of future events.
- There is risk but also opportunity in holding companies which have weak governance of financially material ESG issues. Opportunities can be captured so long as

decisions are based on sufficient evidence and they are aligned with the Fund's objectives and strategy.

- Climate change and the response of policy makers has the potential to have a serious impact on financial markets. Engagement, using partnerships of like-minded investors where feasible, can mitigate this risk.

Appendix B Risk Management

55 The Fund has adopted a Risk Management Strategy to:

- Identify key risks to the achievement of the Fund's objectives.
- Assess the risks for likelihood and impact.
- Identify mitigating controls.
- Allocate responsibility for the mitigating controls.

56 Officers are responsible for maintaining a risk register detailing the risk features in a)-d) above, for reviewing and updating it on a regular basis, and reporting the outcome of the review to the Nottinghamshire Pension Fund Committee.

57 The Risk Register is a key part of the strategy as it identifies the main risks to the operation of the Fund, prioritising the risks identified and detailing the actions required to further reduce the risks involved.

58 A key part of managing the investment risk is by ensuring that the Fund is invested through an adequate number of suitably qualified investment managers and by requiring managers to hold a diversified spread of assets. As the Pool takes over implementation of the assets, the Pension Fund's Committee's role will increasingly be to hold them to account.

59 The correlation between UK and overseas markets has increased significantly over recent time, reflecting the increasing globalisation of the market. The Fund will take into account exchange rate risks when deciding the balance between holding of UK and overseas equities. As a long term investor, the Fund does not undertake currency hedging itself. Individual managers may hedge currency risks but only with prior approval from the Fund.

60 In addition, the following advisory guidelines will apply. These guidelines will be reviewed from time to time and if changes are made these will be incorporated into a revised Investment Strategy Statement, and amendments will be published.

- Not more than 20% of the Fund to be invested in unlisted securities.
- No direct underwriting without prior approval.
- No direct involvement in derivatives (including currency options) without prior approval

Communications Strategy Statement

1 Introduction

This is the communication strategy of the Nottinghamshire Pension Fund, administered by Nottinghamshire County Council (the Administering Authority).

This statement provides an overview of how the fund will communicate with its customers (members and employers) and stakeholders. An effective communication strategy is vital for the fund to meet its objective of providing a high quality and consistent service.

Scheme communications are a critical activity; they are the external face of the fund and provide a key link with its customers and stakeholders. The fund has 330 employers with contributing members and a total membership of over 138,000 scheme members, these members are split into the following categories and with the following numbers of members in each category at 31 March 2019.

Types of Pension Fund membership	Totals
Active members	47,189
Deferred	54,628
Pensioners	36,925
Total	138,742

The Fund continuously looks at ways to enhance its communications, and this policy statement will be reviewed regularly.

2 Regulatory Framework

This strategy has been produced in accordance with Regulation 61 of the Local Government Pension Scheme Regulations 2013. This regulation states that:

- 2.1 An administering authority must prepare, maintain and publish a written statement setting out its policy concerning communications with:
 - (a) members;
 - (b) representatives of members;
 - (c) prospective members; and
 - (d) Scheme employers
- 2.2 In particular the statement must set out its policy on:
 - (a) the provision of information and publicity about the scheme to members, representatives of members and scheme employers;
 - (b) the format, frequency and method of distributing such information or publicity; and
 - (c) the promotion of the scheme to prospective members and their employers.

The strategy must be revised and published by the administering authority following a material change in their policy on any matters referred to in paragraph (2).

3 Minimum Standards

Under the Occupational Pension Schemes (Disclosure of Information Regulation) 1996, administrators of the Local Government Pension Scheme (LGPS) are required to provide the following:

- A copy of the scheme regulations and any overriding legislation, on request, - either through providing a personal copy, a copy for inspection or details of how to obtain a copy; members, employers, prospective members, their spouses, beneficiaries and recognised trade unions are entitled to this information.
- Basic information about the scheme must be given automatically to every prospective member before starting, or, if this is not practical, within two months of joining. This information must be provided on request – unless issued within the previous 12 months – to current members, prospective members, spouses, beneficiaries and recognised trade unions within two months of receipt of a written request.
- Details of any material changes to the LGPS notified to all members and beneficiaries (except excluded persons, that is, deferred pensioners whose present address is unknown) where possible before the change takes effect. Otherwise the change must be notified not later than three months after it has taken effect.
- An annual benefit statement to all active, deferred and pension credit members.

4 Key Objectives

The Nottinghamshire Pension Fund recognise that communicating with scheme stakeholders and customers is a critical activity for the fund and has established communication practices.

The Fund has identified the following key objectives of its communication strategy:

- Provide clear, and timely communication to its customers and stakeholders.
- Recognise the requirement for different methods of communication for different customers and stakeholders.
- Seek continuous improvement in the way the fund communicates.
- Inform customers and stake holders to enable them to make the decisions regarding pension matters.
- Inform customers and stakeholders about the management and administration of the fund.
- Consult major stakeholders about the management and administration of the fund.
- Promote the LGPS as an attractive benefit to scheme members and an important tool in recruitment to employers.
- Support employers to enable them to fulfil their responsibility to communicate and share information with members in relation to the scheme.
- Treat information security with importance and in line with the current data protection legislation.

5 Stakeholders of the Fund

The Strategy outlines the scope of communications, and sets out the mechanisms which are to be used to meet those communication needs. The Pensions Office will use the most appropriate communication medium for the audiences receiving information. This may involve using more than one method of communication.

There are a number of key stakeholder groups with whom the Pensions Office needs to communicate. These are:

- a) Active Scheme members
- b) Prospective Scheme members
- c) Deferred Scheme members
- d) Pensioners and dependants
- e) Scheme Employers
- f) Pension Fund Staff
- g) Trustees of the Fund, which includes the Pensions Committee and the Pensions Board
- h) External bodies

6 Active Scheme members

The Pensions Office have developed a new internet website containing extensive details of the scheme and the Pension Fund and from where scheme leaflets, forms and guides may be downloaded. There are links on the website to other organisations which are relevant to scheme members, such as contacts for Employers, AVC Providers and bodies that may provide independent help for members.

Communications with pensioners are being continually developed using the website to communicate on pertinent issues, such as Finances, etc. The Pensions Office also liaises with the Fund's Scheme Employers to ensure that member's information is kept up to date.

The Pensions Office send benefit statements to all active members on an annual basis, subject to the members Scheme Employer providing timely year end information to the Pensions Administration Team. The statements are sent as soon as the year end data is reconciled but before the 31 August which is the statutory deadline.

A dedicated telephone help line has been established and is widely publicised in the Scheme literature.

There are other miscellaneous actions taken for scheme members, such as dealing with specific customer complaints and commendations, and using appropriate process in the tracking and contacting of deferred beneficiaries.

7 Prospective Scheme members

As part of the Government's aim to encourage the public to save for the future, the Pensions Office targets prospective members through scheme employers. This is done by ensuring that all new appointees receive the scheme booklet and are referred to the Fund's website for further information.

There are a number of factsheets on the website that provide more detail on topics such as increasing benefits and making nominations. These factsheets can be sent out to individual members and are also available to download from the website.

The Pensions Office works with Additional Voluntary Contribution (AVC) providers (Prudential and Scottish Widows) to provide a more informed choice on AVC benefits.

8 Deferred members

A yearly summary of each member's details held including a current valuation of their deferred pension benefits is issued by 31 August each year and sent by post to their home address. This also acts as a prompt to notify the fund of any change of circumstances including current nominations. Undelivered statements which are returned to the fund allow us to trace missing members before their benefits are due for payment.

Deferred members can contact the fund helpline to discuss any issues or specific points regarding membership. The Pensions Office offer information on all aspects of scheme membership and benefits for all active, deferred and pensioner members.

9 Pensioners and Dependants

Pay advices are issued to pensioners 4 times a year March to June, this coincides with the annual pension increase and the annual HMRC tax notification changes. Throughout the rest of the year, a pay advice is only sent if the net pension changes by more than £5. Returned pay advice alerts the Fund to a change in circumstances, allowing the fund to trace missing members. Each member also receives a P60 by post by the end of May each year.

There is a dedicated section on the fund's website that is available for pensioner members. This provides detailed and informative links allowing members to be kept up to date with the latest news and changes. There is also a quick link which allows pensioners to contact the fund using an electronic form.

Pensioners can also send correspondence including changes details, such as address or bank details to both the fund and the pension Payroll by e-mail and post.

10 Scheme Employers

The Pensions Office aims to work in partnership with Scheme Employers to assist them in the application of the Scheme. It is intended to establish a frequent 'dialogue meeting' with District Councils and other group Employers to pass across information, and identify and resolve cases. An Administration Strategy has been developed and circulated to Scheme Employers which includes a Service Level Agreement which outlines the requirements of employers and the Pensions Administration Team.

A password protected section on the fund's website is available for our employers, this provides detailed and informative links allowing employers to be kept up to date with latest news and changes. Electronic copies of all relevant forms, scheme literature, policies and reports are also available to download, along with training documents and tools, plus links to other organisations e.g. Local Government Employers.

Administration forms are available with guidance notes to notify the fund of key events affecting pension benefits.

Annual meetings are arranged inviting employers to enable the fund to update employers on the requirements of the year end activities.

We currently utilise the website to inform our Scheme Employers of their administration responsibilities. This is available on the employer's part of the website.

The Pensions Office uses the 'CIVICA UPM' database to hold member records. Future developments include achieving greater web compatibility and the transmission of data electronically. A project is currently underway to develop an employer portal so that our larger employers have access through the internet to the pension records of their employees together with a calculation suite, for the provision of estimates direct to employees.

11 Pension Fund Staff

The Pensions Office currently ensures that all new staff receive induction and training, so that they are able to undertake their duties and responsibilities effectively. The Pensions Office has Team Meetings and Management Team Meetings to discuss issues ranging from planning to communications.

The Pensions website site is also a resource centre for the Administration team as it has links to the National website, and all employer / member documents are available on the site.

12 Trustees of the Fund, which includes the Pensions Committee and the Pensions Board

The Pensions website contains relevant information for Trustees and Scheme Employers with regards to information about their respective roles. The development of knowledge and training, is also provided by the Fund's Investment & Administration Officers and this is also supplemented by attendance at relevant external training sessions, conferences, and seminars. In addition to the Pensions Committee, following the Public Service Pensions Act 2013 a local Pensions Board has been set up to support the governance and administration of the Nottinghamshire Pension Fund which helps to ensure effective and efficient governance and administration of the Local Government Pension Scheme. The respective Committee and Pensions Board members are provided with information and reports on all relevant pension matters as required.

13 External Bodies

The fund communicates with additional external bodies these include:

- The Department of Communities and Local Government (DCLG) who are the owners of the LGPS, and are responsible for drafting and laying the LGPS regulations before parliament.
- The scheme also communicates with the Department for Work and Pensions (DWP), and communicates in relation to the contracting out details of scheme members and combined pension benefit forecasts.
- The Nottinghamshire Fund ensures it pays all benefits in compliance with both the lifetime allowance and annual allowance
- The fund is also represented at the East Midlands Pension Officers Group, which meets quarterly to discuss all aspects of the LGPS knowledge sharing and collaborative working are key features of this group's discussion.
- The Pensions Office is a member of the Pensions Administration Benchmarking Club which is run by the Chartered Institute of Public Finance and Accountancy (CIPFA). We provide information on membership numbers and administration costs and subsequently benchmark our costs and service with all members and specified members of the Club.
- The Local Government Association
- HM Revenue and Customs
- Government Actuaries Department

14 Unscheduled Communication

There will be times throughout the year when the Pension fund will be required to communicate information to fund stakeholders which is unscheduled and ad hoc. This could include changes to LGPS regulations, or other pension information which may have an impact on employers or members of the scheme.

15 Other Relevant Documentation

In addition to the communication documents produced by the Fund explaining the benefits of the LGPS, for Scheme members and employers the Fund publishes a number of key documents relating to the administration and governance of the Fund. These are as follows:

a. Funding Strategy Statement

LGPS Regulations require that all Administering Authorities publish a Funding Strategy Statement (FSS). The Fund's FSS sets out our commitment to meeting our liabilities while at the same time maintaining stable employer rates.

b. Governance Compliance Statement

LGPS Regulations require all Administering Authorities to publish a Governance Policy Statement. The fund's compliance statement sets out how it delegates its responsibilities including duties and terms of reference and stakeholder representation.

16 Equality

Our communications are tailored to the individual needs of our stakeholders. We will make every effort to provide communications to our stakeholders in their preferred language or format on request.

17 Freedom of Information/GDPR

This communication strategy identifies the classes of information that each Fund publishes or intends to publish in compliance with the Freedom of Information Act. Anyone has a right under the Freedom of Information Act to request any information held by the Fund which is not already made available. Requests should be made in writing to the Pension Manager at the address at the end of this document.

A fee may be charged and the Fund reserves the right to refuse if the cost of providing the information is disproportionately high; if following prompting the request is unclear; and when the requests are vexatious or repeated.

The fund has also produced an appropriate Privacy Statement in line with the requirements of the General Data Protection Regulations.

Risk Management Strategy

Introduction

- 1 This is the Risk Management Strategy for the Nottinghamshire County Council Pension Fund. Risk Management is a key element in the Fund's overall framework of internal control and its approach to sound governance. However, it is not an end in itself, but a means of minimising the costs and disruption to the Fund caused by undesirable or unexpected events. The aim is to eliminate or reduce the frequency of risk events occurring (where possible and practicable) and minimise the severity of the consequences if they do occur.
- 2 Risk can be defined as any event or action which could adversely affect the Fund's ability to achieve its purpose and objectives. Risk management is the process by which:
 - risks are systematically identified
 - the potential consequences are evaluated
 - the element of risk is reduced where reasonably practicable
 - actions are taken to control the likelihood of the risk arising and reducing the impact if it does.

Purpose and Objectives of the Fund

- 3 The purpose of the Fund is to:
 - Pay pensions, lump sums and other benefits provided under the LGPS Regulations.
 - Meet the costs associated in administering the Fund.
 - Receive contributions, transfer values and investment income.
 - Invest any Fund money not needed immediately to make payments.

- 4 The funding objectives are to:
 - Set levels of employer contribution that will build up a fund of assets that will be sufficient to meet all future benefit payments from the Fund.
 - Build up the required assets in such a way that employer contribution rates are kept as low and stable as possible.
- 5 The following principles underpin the Fund's investment activity:
 - The Fund will aim to maintain sufficient assets to meet all its obligations on a continuing basis.
 - The Fund will be invested in a diversified range of assets.
 - Proper advice on the suitability of types of investment will be obtained and considered at reasonable intervals.
 - The Fund will aim to conduct its business and to use its influence in a long term responsible way.

Key Parties

- 6 The key parties involved in the Fund and their responsibilities are as follows.

The Administering Authority

- 7 The Administering Authority for the Pension Fund is Nottinghamshire County Council. Under the terms of the Council's constitution, the functions of the Council as administering authority are delegated to the Nottinghamshire Pension Fund Committee. The full governance arrangements of the Fund are detailed in the Fund's Governance Compliance Statement. The main responsibilities of the Administering Authority are to:
 - Collect employee and employer contributions.
 - Invest the Fund's assets.

- Pay the benefits due to Scheme members.
- Manage the actuarial valuation process in conjunction with the Fund Actuary.
- Prepare and maintain the Funding Strategy Statement (FSS) and Investment Strategy Statement (ISS) after consultation with other interested parties as appropriate.
- Monitor all aspects of the Fund's performance.

Committee Members

- 8 The members of the Committee are not trustees (as the LGPS is a statutory scheme) but do have fiduciary duties towards the scheme members and employers. The main responsibilities of the Committee are to:
- Determine the overall investment strategy, and what restrictions, if any, are to be placed on particular types and market locations of investments.
 - Determine the type of investment management to be used and appoint and dismiss fund managers.
 - Receive quarterly reports on performance from the main fund managers and question them regularly on their performance.
 - Receive independent reports on the performance of fund managers on a regular basis.
 - Be encouraged to receive suitable training to help them discharge their responsibilities and attend such training courses, conferences and meetings that deliver value for money to the Fund.

Scheme Employers

- 9 In addition to the Administering Authority, a number of other Scheme Employers, including Admission Bodies, participate in the Fund. The responsibilities of each Scheme Employer that participates in the Fund, including the Administering Authority, are to:
- Collect employee contributions and pay these together with their own employer contributions as certified by the Fund Actuary to the Administering Authority within the statutory timescales.
 - Notify the Administering Authority of any new Scheme members and any other membership changes promptly
 - Exercise any discretions permitted under the Regulations
 - Meet the costs of any augmentations or other additional costs in accordance with agreed policies and procedures
 - Notify the Administering Authority of significant changes in the employer's structure or membership.

Fund Actuary

- 10 The Fund Actuary for the Pension Fund is Barnett Waddingham LLP. The main responsibilities of the Fund Actuary are to:
- Advise interested parties on funding strategy and completion of actuarial valuations in accordance with the FSS and the Regulations.
 - Advise on other actuarial matters affecting the financial position of the Fund.

Chief Finance Officer

- 11 Under the Council's constitution, the Service Director Finance, Infrastructure & Improvement is designated the Council's Chief Finance Officer (also known as the Section 151 Officer). The Group Manager (Financial Management) is the deputy Section 151 Officer. Financial Regulations specify that the Section 151 Officer is responsible for arranging the investment of the Pension Fund. Operational matters falling under this responsibility are exercised by the Senior Accountant (Pensions & Treasury Management).
- 12 Representatives of the Service Director Finance, Infrastructure & Improvement provide advice to the Committee on investment matters and attend meetings of the Pension Fund Committees as required.

Service Director Customers, Governance and Employees

- 13 The Service Director Customers, Governance and Employees is responsible for the Pensions Administration function, operated by the Pensions Office within the Business Support Centre. This function covers:
- Pensions administration and employers support
 - Pensions administration systems
 - Communications
 - Technical/performance support
- 14 Representatives of the Service Director Customers, Governance and Employees provide advice to the Committee on pension administration matters and attend meetings of the Pension Fund Committees as required.

Independent Adviser

- 15 The Fund has an Independent Adviser who attends meetings of the Pension Fund Committee and Pensions Working Party as required.
- 16 The independent adviser is engaged to provide advice on:
- the objectives and policies of the fund
 - investment strategy and asset allocation
 - the fund's approach to responsible investment
 - choice of benchmarks
 - investment management methods and structures
 - choice of managers and external specialists
 - activity and performance of investment managers and the fund
 - the risks involved with existing or proposed investments
 - the Fund's current property portfolio and any proposals for purchases, sales, improvement or development
 - new developments and opportunities in investment theory and practice.

Risk Management Strategy

- 17 The risk tolerance of the Fund is agreed with the Pension Fund committee, the investment team and independent adviser through the setting of the investment beliefs, funding and investment objectives. The Fund will only take sufficient risk in order to achieve its long term funding objectives set out in paragraph 4.

- 18 The Pension Fund's Risk Management Strategy is to:
- a) identify key risks to the achievement of the Fund's aims
 - b) assess the risks for likelihood and impact
 - c) identify mitigating controls
 - d) allocate responsibility for the mitigating controls
 - e) maintain a risk register detailing the risk features in a)-d) above
 - f) review and update the risk register on an annual basis
 - g) report the outcome of the review to the Nottinghamshire Pension Fund Committee.
- 19 The Risk Register is a key part of the Risk Management Strategy as it identifies the main risks to the operation of the Fund, prioritising the risks identified and detailing the actions required to further reduce the risks involved.
- 20 All staff involved in the Pension Fund and Members of the Nottinghamshire Pension Fund Committee need to have an appropriate level of understanding of risk and how risks affect the performance of the Fund. To consolidate the risk management process, the Pension Fund Committee will be asked to:
- agree the Risk Management Strategy
 - approve the Risk Register and agreed actions
 - receive and approve the Annual Governance Statement, which will comment upon the Fund's risk management process.
- 21 By adopting this approach, the Pension Fund will be able to demonstrate a clear commitment, at a strategic level, to the effective management of Pension Fund risks. The Risk Management Strategy and Risk Register will be kept under review and will be revised following any material changes in policy.

Risk Register

Objectives

- The objectives of the Risk Register are to:
 - identify key risks to the achievement of the Fund's objectives
 - assess the significance of the risks
 - consider existing controls to mitigate the risks identified
 - identify additional action required.

Risk Assessment

- Identified risks are assessed separately and for each the following is determined:
 - the likelihood of the risk materialising
 - the severity of the impact/potential consequences if it does occur.
- Each factor is evaluated on a sliding scale of 1 to 5 with 5 being the highest value i.e. highest likelihood/most severe impact/consequences. The risk evaluation tables below have been used in order to assess specific risks and to introduce a measure of consistency into the risk assessment process. The overall rating for each risk is calculated by multiplying the likelihood value against the impact value.

LIKELIHOOD:

1	Rare	0 to 5% chance
2	Unlikely	6 to 20% chance
3	Possible	21 to 50% chance
4	Likely	51 to 80% chance
5	Almost certain	81%+ chance

IMPACT:

1	Insignificant	0 to 5% effect
2	Minor	6 to 20% effect
3	Moderate	21 to 50% effect
4	Significant	51 to 80% effect
5	Catastrophic	81%+ effect

- Having scored each risk for likelihood and impact, the risk ratings can be plotted onto the following matrix to enable risks to be categorised into Low, Medium, High and Very High Risk.

Relative Impact	Catastrophic (5)	M	H	VH	VH	VH
	Significant (4)	M	H	VH	VH	VH
	Moderate (3)	M	M	H	H	H
	Minor (2)	L	L	M	M	M
	Insignificant (1)	L	L	L	L	L
		(1) Rare	(2) Unlikely	(3) Possible	(4) Likely	(5) Almost Certain
		Relative Likelihood				

- This initial assessment gives the inherent risk level. Existing controls are then identified and each risk is re-assessed to determine if the controls are effective at reducing the risk rating. This gives the current (or residual) risk level. The current risk rating scores and categories are then used to prioritise the risks shown in the register in order to determine where additional action is required in accordance with the following order of priority:

Red = Very High Priority

Take urgent action to mitigate the risk.

Orange = High Priority

Take action to mitigate the risk.

Yellow = Medium Priority

Check current controls and consider if others are required.

Green = Low Priority

No immediate action other than to set a review date to re-consider your assessment.

Nottinghamshire Pension Fund Risk Register - Summary

Administration Strategy Statement

Introduction

An administration strategy as allowed for by the Local Government Pension Scheme, is seen as one of the tools which can help in delivering a high quality administration service to the scheme member and other interested parties. Delivery of a high quality administration service is not the responsibility of one person or organisation but is the joint working of a number of different parties.

The following is the Pension Administration Strategy of the Nottinghamshire Local Government Fund, administered by Nottinghamshire County Council (the administering authority).

The aim of this strategy statement is to set out the quality and performance standards expected of:

1. Nottinghamshire County Council in its role of administering authority and scheme employer
2. All other scheme employers within the Nottinghamshire Local Government Pension Fund.

It seeks to promote good working relationships, improve efficiency and enforce quality amongst the scheme employers and the administering authority.

From 1 April 2015 the Pensions Regulator (tPR) took responsibility for setting the standards of administration and governance requirements on all administrative aspects of the Local Government Pension scheme (LGPS).

In addition the Nottinghamshire Local Pension Board has now been established to provide an independent scrutiny role which will assist the Nottinghamshire Local Government Pension Fund to achieve regulatory compliance, effective and efficient administration and governance of the pension fund.

Background

The LGPS represents a significant benefit to scheme members. Much of the success in promoting the scheme to members and ensuring a high quality service depends upon the relationship between the administering authority and scheme employers in the day to day administration of the scheme.

The administering authority also reminds or alerts employers to the value of the LGPS, thereby helping with recruitment, retention and motivation of employees.

The fund comprises of over 330 scheme employers with active members, and approximately 138,000 scheme members in relation to the Local Government Pension Scheme (LGPS).

The efficient delivery of the benefits of the LGPS is dependent on sound administrative procedures being in place between the administering authority and scheme employers.

Strategic aims

The aim of this strategy is to continue progress towards a seamless, automated pension service, employing appropriate technologies and best practice which both significantly improve the quality of information overall and the speed with which it is processed to provide better information for scheme employers and stakeholders and a more efficient service to members. It outlines, in conjunction with the Pension Administration Service Level Agreement as attached, the quality and required performance standards of all fund, scheme employers and admission bodies within the fund.

This strategy is designed to move towards the highest standards of administration through the most efficient and cost effective practices, thereby ensuring a consistent approach to pension administration across all scheme employers in partnership with the fund so that all scheme members ultimately receive the highest standard of service in the most efficient and effective way possible.

Regulatory framework

The development and implementation of an Administration Strategy is part of the regulatory framework of the Local Government Pension Scheme Regulations 2013. These provide the conditions and regulatory guidance surrounding the production and implementation of an Administration Strategy.

Regulation 59 (1) enables an LGPS administering authority to prepare a document (“the Pension Administration Strategy”) which contains the following:

- procedures for liaison and communication with their relevant employing authorities
- the establishment of levels of performance which the administering authority and the relevant employing authorities are expected to achieve in carrying out their functions under the LGPS by:
 - the setting of performance targets
 - the making of agreements about levels of performance and associated matters
 - such other means as the administering authority considers appropriate
- procedures which aim to secure that the administering authority and the relevant employers comply with the statutory requirements in respect of those functions and with any agreement about levels of performance
- procedures for improving the communication of information by the administering authority and the relevant employing authorities
- the circumstances in which the administering authority may consider giving written notice to a relevant employing authority on account of that employers unsatisfactory performance in carrying out its functions under these regulations when measured against levels of performance
- such other matters as appear to the administering authority to be suitable for inclusion in that strategy.

In addition, Regulation 59(6) of the administration regulations also requires that where a Pension Administration Strategy is produced, a copy is issued to each of the relevant employing authorities as well as to the Secretary of State. Similarly, when the strategy is revised at any future time the administering authority (following a material change to any policies contained within the strategy) must notify all of its relevant employing authorities and also the Secretary of State.

It is a requirement that, in preparing or revising any Pension Administration Strategy, the administering authority must consult its relevant employing authorities and such other persons as it considers appropriate.

In addition, Regulation 70 of the Administration Regulations allows an administering authority to recover additional costs from a scheme employer where, in its opinion, the costs are directly related to the poor performance of that scheme employer. Where this situation arises the administering authority is required to give written notice to the scheme employer, setting out the reasons for believing that the additional costs should be recovered and, the amount of the additional costs, together with the basis on which the additional amount has been calculated.

The following strategy statement and the Service Level Agreement, sets out the requirements of regulation 59(1). They form the basis of the day to day relationship between the Nottinghamshire Pension Fund and scheme employers. They also set out the circumstances under Regulation 70 where additional costs are incurred as a result of the poor performance of a scheme employer, together with the steps that would be followed before any such action were taken.

Nottinghamshire Local Pension Board

The Nottinghamshire Local Pension Board was established in April 2015 to assist Nottinghamshire County Council, as administering authority, in securing compliance with legislation and any requirements imposed by the Pensions Regulator. The Board also assists in ensuring effective and efficient governance and administration of the scheme are achieved.

Key objectives

The key objectives of this strategy are to ensure that:

- the Nottinghamshire Local Government Pension Fund and Scheme employers are aware of and understand their respective roles and responsibilities under the LGPS Regulations and in the delivery of administrative functions (largely defined in the Pensions Administration Service Level Agreement attached to this document)
- the Nottinghamshire Local Government Pension Fund operates in accordance with LGPS Regulations and is aligned with the Pensions Regulator's requirements by demonstrating compliance and scheme governance
- communication processes are in place to enable both the fund and scheme employers to proactively and responsively engage with each other through the new website and the Employer Support and Compliance Team
- accurate records are maintained for the purpose of calculating pensions entitlements and scheme employer liabilities, ensuring all information and data is communicated accurately, on a timely basis and in a secure and compliant manner
- the fund and scheme employers have appropriate skills and that training is in place to deliver a quality service and advise scheme employers on the changing pensions agenda;

- standards are set and monitored for the delivery of specified activities in accordance with LGPS Regulations standards as set out in the Pension Administration Service Level Agreement attached to this document.

Establishing levels of performance Performance standards

The LGPS prescribes that certain decisions are taken by either the administering authority or the scheme employer, in relation to the rights and entitlements of individual scheme members. In order to meet these obligations in a timely and accurate manner, and also to comply with overriding disclosure requirements, the Nottinghamshire Local Government Pension Fund should agree levels of performance between itself and the scheme employers. These are set out in the Service Level Agreement which is appended to this strategy statement.

Quality Legislation

In carrying out their roles and responsibilities in relation to the administration of the Local Government Pension Scheme the administering authority and scheme employers will, as a minimum, comply with overriding legislation, including:

- Pension Act 1995 and associated disclosure legislation
- Freedom of information Act 2000
- Age Discrimination Act 2006
- Data Protection Act 1998
- Equality Act 2010
- Finance Act 2004 and
- Health and Safety legislation
- General Data Protection Regulations (GDPR) 2018.

Where agreed, the administering authority and scheme employers will comply with local standards which go beyond the minimum requirements set out in overriding legislation. Such best practice standards are outlined in the following sections.

General Data Protection Regulations (GDPR)

On 25 May 2018 the EU's General Data Protection Regulation (GDPR) comes into force containing new standard of protection of individual's personal data in the European Economic Area. The change will impact on the way pensions scheme can lawfully collect, use, retain and share information. GDPR applies to organisations that handle the personal data of EU residents and will replace the UK's Data Protection Act 1998 (DPA).

Administration standards

Both the administering authority and scheme employers will ensure that all tasks are carried out to agreed quality standards. In this respect the standards to be met are:

- compliance with all requirements set out in the information provided on the LGPS website
- work is to be completed in the required format, using the appropriate forms contained on the LGPS Website
- information to be legible, accurate and in the required format
- communications to be easy to read and understand
- information provided to be checked for accuracy
- information to be authorised by an agreed signatory in line with the scheme employers audit requirements
- actions are carried out, or information is provided, within the timescales set out in this strategy and Service Level Agreement document.

Performance standards

Overriding legislation dictates minimum standards that pension schemes should meet in providing certain pieces of information to the various parties associated with the scheme. The scheme sets out a number of requirements for the administering

authority and scheme employers to provide information to each other, regarding scheme members and prospective scheme members, their dependents, and/ or other regulatory bodies. Within the Service Level Agreement performance standards have been set which cover all aspects of the administration of the scheme, and where appropriate go beyond the overriding legislative requirements.

For the avoidance of doubt "accuracy" in this strategy is defined as when the administering authority has received a fully completed form with no gaps in mandatory areas and with no information which is either contradictory within the document or which requires clarification.

The timeliness relates to a date of event being either the date the member started or left the Nottinghamshire Local Government Pension Fund or any other material change that affects a scheme member's pension record.

Procedures for compliance

Compliance is the responsibility of the administering authority and scheme employers. The Nottinghamshire Local Government Pension Fund, Employer Support and Compliance Team will work closely with all scheme employers to ensure compliance with all statutory requirements, whether they are specifically referenced in the LGPS Regulations, in overriding legislation, or in this administration strategy. The Pensions Administration Team will also work with employers to ensure that overall quality and timeliness is continually improved. Various methods will be employed, in order to ensure such compliance and service improvement, these will include:

- audit
- performance monitoring

In addition where there is a failure of statutory compliance the Pensions Manager is required to update and inform the Pensions Regulator.

Liaison and communication

Authorised contact for employers

Each employer will nominate a contact to administer the five main areas of employer responsibilities within the LGPS as follows:

- a strategic contact for valuation, scheme consultation and, discretionary statements
- an internal disputes resolution procedure lead officer for stage 1
- an administration contact for day to day administration of the Nottinghamshire Pension Fund, undertaking the completing of forms and responding to day to day queries
- a year end activities lead officer
- a finance contact for completion and submission of the monthly postings and co-ordination of exception reports.

All nominated officers will have access to the employer's area of the Nottinghamshire Local Government Pension Fund website and as services change access to the employer's portal of the pension fund administration system once implemented (projected date April 2017).

It is the responsibility of the scheme employer to ensure that the nominated officers are trained appropriately in their responsibilities.

Liaison and communication with employers

Nottinghamshire Local Government Pension Fund will provide the following contact information for employers and their members:

- a contact point for regulatory advice, guidance and administration queries
- an Employer Support and Compliance Team for advice and guidance with monthly returns process
- a helpline for members at certain points in the year e.g. helpline for ABS queries
- an e-mail address (generic)

- pension fund access 8:00am to 5:00pm Monday to Thursday and 4:30pm Friday (face to face, telephone and e-mail for both – scheme members and employers)
- website availability with employers and members area
- employer and member information and forms available on the website
- annual year end briefing for year-end activities
- Pension Fund Annual General Meeting.

Improving employer performance

The Employer Support and Compliance Team will seek, at the earliest opportunity, to work closely with employers in identifying any areas of poor performance, provide the opportunity for necessary training and appropriate advice.

Where persistent and ongoing failure has been identified and no improvement is demonstrated by an employer, the following sets out the steps that will be taken to address the situation in the first instance:

- the Pensions Team will contact and/ or meet with the employer to discuss the area(s) of concern and how they can be addressed
- where no improvement has been demonstrated by the employer, or where there has been a failure to take agreed action by the employer, the Pensions Team will issue a formal written notice to the employer setting out area(s) of poor performance that has been identified and, the steps taken to resolve it. The letter will provide notice that the additional costs are now to be reclaimed.
- Nottinghamshire Local Government Pension Fund will clearly set out the calculations of any loss or additional costs, taking account of time and resources in resolving the specific area of poor performance
- Nottinghamshire Local Government Pension Fund will make a claim against the scheme employer, setting out the reasons for doing so, in accordance with the regulations.

Circumstances where the Administering Authority may levy costs associated with the Employing Authority's poor performance

Regulation 70 of the Local Government Pension Scheme Regulations 2013 provides that an administering authority may recover from an employing authority any additional costs associated with the administration of the scheme incurred as a result of the poor level of performance of that employing authority. Where an administering authority wishes to recover any such additional costs they must give written notice stating:

- the reasons in their opinion why the scheme employer's poor performance has contributed to the additional cost
- the amount of the additional cost incurred
- the basis on how the additional cost was calculated and
- the provisions of the Pension Administration Strategy relevant to the decision to give notice.

Circumstances where costs might be recovered

Any additional costs to the Nottinghamshire Local Government Pension Fund in the administration of the LGPS that are incurred as a direct result of poor performance will be recovered from the scheme employer. The circumstances where such additional costs will be recovered from the scheme employer:

- persistent failure to provide relevant information to the administering authority, scheme member or other interested party in accordance with specified performance targets (either as a result of timeliness of delivery or quality of information)
- failure to pass relevant information to the scheme member or potential members, either due to poor quality or not meeting the agreed timescales outlined in the performance targets

- failure to deduct and pay over correct employee and employer contributions to the Nottinghamshire Local Government Pension fund within stated timescales
- instances where the performance of the scheme employer results in fines being levied against the administering authority by the Pension Regulator, Pensions Ombudsman or other regulatory body.

Calculation of costs incurred

For a persistent failure to resolve an isolated case satisfactorily the Fund will recharge costs from the point in time at which a formal letter is issued to the scheme employer until the case is resolved, at a rate of £37 for each hour an officer spends trying to resolve the matter.

For persistent and ongoing failure to meet targets, following the intervention to assist the employer concerned, the Fund will recharge the additional costs due to the employer's poor performance at the rate of £37 for each hour, see appendix B the schedule of charges which identifies the main employer activities where a charge maybe made for poor performance.

Where the under performance of the scheme employer results in fines and/or additional costs being levied against the Fund, the Fund will recharge the full costs it has incurred to the relevant employer.

Disputes

The Nottinghamshire Local Government Pension Fund has a clear internal disputes resolution procedure (IDRP) set out for members of the LGPS which can be found on the pension fund's website. Scheme employers are, however, required to nominate an adjudicator to deal with disputes at stage 1 of the process. Scheme employers are asked to supply the details of their stage 1 adjudicators together with details of their stage 1 Adjudicators as identified in their Discretionary Policy Statements. They should advise the fund immediately of changes made in this regard.

Consultation

This document and associated SLA has been consulted upon with Nottinghamshire Pension Fund Employers.

Review process

The Nottinghamshire Local Government Pension Fund will review the Administration Strategy to ensure it remains up to date and meets the necessary regulatory requirements at least every two years.

Appendix A

Service Level Agreement

Administering Authority duties and responsibilities

The Nottinghamshire Local Government Pension Fund Administration Team will ensure the following functions are carried out:

- provide a helpdesk facility for enquiries, available during normal office hours providing a single point of access for information relating to the LGPS. Along with a helpline at certain times of the year e.g. Annual Benefit Statement time
- create a member record for all new starters admitted to the LGPS, based on the information provided by the scheme employer
- collect and reconcile employer and employee contributions
- maintain and update member's records for any changes received by the administration team
- at each actuarial valuation the fund will provide the required data in respect of each member and provide statistical information over the valuation period to the fund actuary so that he can determine the assets and liabilities for each employer
- communicate the results of the actuarial valuation to the fund to each employer
- provide every active, deferred and pension credit member with a benefit statement each year
- provide estimate of retirement benefits on request by the employer
- calculate and pay retirement benefits, deferred benefits and death in service benefits in accordance with LGPS rules, member's options and statutory limits on request by the employer
- comply with HMRC legislation.

Discretionary powers

The Nottinghamshire Local Government Pension Fund will ensure the appropriate Administration Authority policies are formulated, reviewed and publicised in accordance with scheme regulations.

Internal Disputes Resolution Procedure (IDRP)

The fund will nominate an adjudicator to deal with appeals at stage one where the appeal is against a decision the Pension Fund has made or is responsible for making.

Fund performance levels

A description of the performance activity and performance action and level of performance is identified in the table on page 109.

Action	Timescale
Publish and review the administration strategy.	Within one month of any agreed changes with employers, Pensions Committee and the Pensions Board.
Website.	Continual process of updating the members and employers information.
Issue and keep up to date all current forms for completion by either scheme members, prospective scheme members or scheme employers.	30 working days of any changes.
Issue and update administering authorities discretions within the scheme.	Within 30 working days of policy being agreed by the Pensions Committee and the Pensions Board.
Notify scheme employers and scheme members of changes to the scheme rules.	Within 30 working days of the change(s) coming into effect. Subject to receipt of statutory guidance.
Notify scheme employer of issues relating to scheme employers poor performance.	Within 30 working days of performance issue becoming apparent.
Notify scheme employer of the decision to recover additional costs associated with the scheme employer's poor performance.	Within 10 working days of scheme employer failure to improve performance, as agreed.
Issue annual benefit statements to active members as at 31 March each year.	By the following 31 August subject to receipt of full and correct information from employers.
Issue annual benefit statements to deferred benefit members as at 31 March each year.	By the following 31 August. Subject to full and correct information from employers.
Issue pension saving statements to active members who breach the Annual Allowance threshold as at 5 April and to members who request such.	By the following 6 October.
Provide a helpline and telephone service to support members enquiries and questions.	Ongoing and additional specific helpline at certain times of the year.

Fund administration task	Timescale
Make available formal valuation results (including individual employer details).	10 working days from receipt of final certified results from fund actuary.
Carry out interim valuation exercise on cessation of admission agreements or scheme employer ceasing participation in the fund.	Referral to the fund actuary within one month from receipt of all required data from the scheme employer.
Arrange for the setting up of separate admission agreement, where required (including the allocation of assets and notification to the Secretary of State).	Within three months of agreement to set up such funds.
All new admitted bodies to be required to undertake a risk assessment and to put in place a bond or alternative security to protect other scheme employers participating in the pension fund.	To be completed before the body can be admitted to the Fund.
All admitted bodies to undertake a review of the level of bond or indemnity required to protect the other scheme employers participating in the pension fund.	Annually, or such other period as may be agreed with the administering authority.

Scheme administration task	Timescale
New Starters - make all administration decisions in relation to a new scheme member.	Within two month from receipt of all necessary information.
General enquiries - provide a response.	10 days from receipt of all necessary information.
Provide transfer in quote to scheme member.	Two month from receipt of all the necessary information.
Confirm receipt of transfer in payment and update pension record.	One month from receipt of all necessary information. Scheme member responsibility to chase the transfer.
Arrange for the transfer of scheme member additional voluntary contributions into in-house arrangement.	Two months from receipt of all necessary information.
Provide requested estimates of benefits to employees/ employers including any additional fund costs in relation to early payment of benefits from ill health, flexible retirement, redundancy or business efficiency.	Two months from receipt of all necessary information. Subject to the demands of the service, prioritisation and statutory requirement to provide information.
Notify leavers of deferred benefit entitlements.	Within two months of receipt of all necessary information.
Details of transfers out quotation.	Within two months of receipt of all necessary information.
Payment of transfers out.	One month from receipt of all necessary information.
Notify retiring employees of options following request from member (as per retirement pack).	One month of receipt of all necessary information.
Payment of retirement lump sum and pension.	Lump sum paid within 30 days of retirement subject to receipt of necessary information. Pension to be paid in the next available pay run. Into the nominated bank account.
Death notifications – issue initial information, requesting certificates.	Within 10 working days following notification of death.
Notification of survivor benefits.	10 working days following receipt of all necessary information.
Undertake Life Certificates checks with the DWP. Operate the Tell us Once service.	Periodic.

Scheme employer duties and responsibilities

Employers are responsible for ensuring that member and employer contributions are deducted at the correct rate, including additional contributions.

The Nottinghamshire Pension Fund is not responsible for verifying the accuracy of any information provided by the employer for the purpose of calculating benefits under the provisions of the Local Government Pension Scheme. That responsibility rests with the employer.

Any over-payment as a result of inaccurate information being supplied by the employer shall be recovered from that employer at the discretion of the Administering Authority.

In the event of the Nottinghamshire Pension Fund being fined by the Pensions Regulator, this fine will be passed onto the relevant employer where that employer's actions or inaction caused the fine.

Discretionary powers

The employer is responsible for exercising the discretionary powers given to employers by the regulations. The employer is also responsible for compiling, reviewing and publishing its policy in respect of the key discretions as required by the regulations to its employees and must provide a copy to the Administering Authority.

Member contribution bands

Employers are responsible for assessing and reassessing the contribution band that is allocated to a member. The employer must also inform the member of the band that they have been allocated on joining the scheme and when they have been reallocated to a different band.

Payments and charges

Payments by employing authorities

Employing authorities will make all payments required under the LGPS regulations, and any related legislation, promptly to Nottinghamshire Pension Fund and/or its Additional Voluntary Contribution (AVC) providers (Prudential/Scottish Widows) as appropriate.

Paying contributions

Member and employer contributions can be paid over at any time and should be accompanied by a monthly postings submission, the latest date contributions can be paid is the 17th day of the month following the month in which the deductions were made.

AVC deductions

Employers will pay AVCs to the relevant provider by the 17th of the following month of them being deducted.

Payment method

Contributions (but not AVCs) should be paid to Nottinghamshire Pension Fund by BACS payment to Nottinghamshire Pension Fund bank account.

Early retirement and augmentation costs

Employers are required to pay the full early retirement costs within one month of request.

Interest on late payment

In accordance with the LGPS regulations, the Nottinghamshire Pension Fund reserves the right to charge interest on any amount overdue from an employer by more than one month depending on circumstances.

Employer contributions

Employer's contribution rates are not fixed and employers are required to pay whatever is necessary to ensure that the portion of the fund relating to their organisation is sufficient to meet its liabilities.

Actuarial valuation

An actuarial valuation of the fund is undertaken every three years by the fund's actuary. The actuary balances the fund's assets and liabilities in respect of each employer and assesses the appropriate contribution rate and deficit payment if appropriate for each employer for the subsequent three years.

Administration charge

The cost of running the Nottinghamshire Pension Fund is charged directly to the fund, the actuary takes these costs into account in assessing employer's contribution rates.

Employer activities

Communication requirements – task	Timescale
Provide and publish policies in relation to all areas where the employing authority may exercise discretion within the scheme. A copy of the policy to be provided to the administering authority.	Within 30 working days of policy being formally agreed by the employer. To be reviewed annually.
Provide details of employer and employee contributions.	17th of the month following deduction.
Respond to enquiries from administering authority.	Within 10 working days.
Provide year end information for the purposes of annual benefit statements, annual allowance, and lifetime allowance calculations.	By 30 April following the year end in the required format(following the implementation of the employer portal information may be provided through the portal by April 2017).
Provide year end information in a valuation year.	By 30 April following the year end.
Distribute information provided by the Admin Authority to scheme members/potential scheme members which is provided either direct from Pensions Office or where notified through the website.	Within 20 working days of receipt or notification.
Provide new scheme members with scheme information and new joiner forms.	At appointment of employee or change in contractual conditions.
Inform the Pension Fund of all cases where prospective new employer or admitted body may join the fund.	Notify the Pension Fund at least three months before the date of transfer.
Payment of additional fund payments in relation to early payment of benefits.	Within 30 working days of receipt of invoice from the pension fund/ within timescales specified in each case.

Employer responsibilities – task	Timescale
New starters must be notified to the Pensions Office.	10 working days of the scheme member joining.
Arrange for the correct deduction of employee contributions from scheme members pensionable pay on becoming a scheme member.	Immediately upon commencing scheme membership either through auto enrolment opting in or change in circumstances.
Reassessment of employee contribution rate in line with employer's policy.	Immediately following change of circumstances.
Ensure correct deduction of pension contributions during any period of child related leave, trade union dispute or other forms of leave of absence from duty.	Immediately, following receipt of election from scheme member to make the necessary pension contributions.
Commence/amend/cease deductions of additional pension contributions.	Commence/amend in month following election to pay contributions or notification received from administering authority, cease immediately following receipt of election from scheme member.
Employers are responsible for assessing and reassessing the contribution band that is allocated to an employee.	The employer must inform the employee of the band have been allocated on joining the scheme and when they have been reallocated to a different band.
Arrange for the deduction of AVCs and payment over of contributions to AVC provider(s).	Commence deduction of AVCs upon receipt of notification of provider. Pay over contributions to the AVC provider(s) by the 17th of the month following the month of election.
Refund any employee contributions when employees opts out of the pension scheme before three months.	Month following month of opt out.
Cease deduction of employee contributions where a scheme member opts to leave the scheme.	Month following month of election, or such later date specified by the scheme member.
Send a completed end of year contribution return to enable the production of annual benefit statements, annual allowance and lifetime allowance calculations.	By 30th April each year (this process will change pending the implementation of an electronic employers portal).
Provide the administering authority with all material (personal and contract) changes in employee's details.	Within 10 working days of the change.
Provide scheme leavers details to administering authority.	Within 10 working days of leaving.
Provide retirement notification and pay details. Following the issue of retirement pack to retiring member.	No later than 10 working days prior to the date of retirement. In order that all information is in place to allow the processing of retirement benefits.

Employer responsibilities – task	Timescale
Provide member estimate details.	At the point of request from the member.
To have access to an independent medical practitioner qualified in Occupational health medicine, in order to consider all ill health retirement applications as an employer.	Within one month of commencing participation in the scheme, and having arrangements in place on an ongoing basis.
Appoint a nominated person for stage 1 of the pension dispute process and provide full details to the administering authority.	Within 10 working days following the resignation of the current/ new employer to the fund “appointed person”.

Measuring performance

Both employer and administering authority performance will be measured and reported to the Pensions Committee and the Pensions Board at regular intervals.

Unsatisfactory performance

Where an employer materially fails to operate in accordance with standards described in this service level agreement, which leads to extra costs being incurred by the administering authority, the administering authority may issue a written notice to the employer requiring that these extra cost be met by the employer.

Appendix B

Schedule of Charges

Employer Activities	Reason for Charge	Basis of Charge
Any overpayment made to a member due to inaccurate information provided by an employer will be recovered from employee, if the total overpaid is more than £50.		Actual amount overpaid (could include Lump Sum and Pension) + admin charge based on the following: £37.00 Total per hour spent. This may also include the cost of other recovery actions (court and legal fees)
Contributions to be paid anytime but latest date by 17th month.(weekends and bank holidays on the last working day before 17th.	Due by 17th month-late receipt of funds, plus cost of additional time spent chasing payment.	Number of day's late interest charged at base rate plus 1%.
Monthly scheme employer contribution return provided at the latest by 17th, errors on the return i.e. employer/employee rate deducted incorrectly, exception reporting errors to be resolved within 2 months.	Due by 17th month, any additional work caused by late receipt of information, incorrect information, incorrect contributions.	Failure to provide appropriate information, resulting in significant work will result in an admin charge at £37.00 per hour + VAT.
Change in member details to be notified as per the administration strategy for example: a. New Starters b. Leavers c. Material change in pension records		Failure to provide appropriate information, resulting in significant work will result in an admin charge at £37.00 per hour + VAT.
Early leaver's information to be notified as per the administration strategy.		Failure to provide correct information on the appropriate pension admin form, resulting in significant work will result in an admin charge at £37.00 per hour + VAT.
Retirement notifications.	Due 10 working days before last day of employment unless the reason for retirement is ill health or redundancy – additional work caused by late receipt of information.	Failure to provide appropriate information, resulting in significant work will result in an admin charge at £37.00 per hour + VAT.

Employer Activities	Reason for Charge	Basis of Charge
Death in Service Payment.	Due within 7 working days of the notification – additional work caused by late receipt of information from employer.	Failure to provide appropriate information, resulting in significant work will result in an admin charge at £37.00 per hour + VAT.
AVC deducted from pay to be paid anytime but latest date by 17th of the month.	Additional investigative work caused through lack of compliance by employer.	Failure to provide appropriate information, resulting in significant work will result in an admin charge at £37.00 per hour + VAT.
Re-issue of invoices.	Charge based on number of request.	Failure to provide appropriate information, resulting in significant work will result in an admin charge at £37.00 per hour + VAT.
Member requests estimate.	The first estimate provided in each financial year is free, then subsequent estimates are chargeable.	1st request in each financial year is free. Additional request is charged at a notional charge of £50 + VAT is made.
Pension sharing order.	For pension sharing order work, each party will be charged according to the instruction in the court order.	The charge is £607 incl VAT. Total payment to be received prior to work being completed.
Miscellaneous items: <ul style="list-style-type: none"> ● Benefit recalculation. ● Members file search and record prints. ● Supplementary information requests. 	Where information is requested by members that is in addition to routine.	£37.00 per hour + VAT.
